OUR SPECIALTIES FOR ORAL APPLICATIONS

| RAW MATERIAL GROUP | QUALITY | FUNCTION |
|----------------------|------------------------|---------------------------|
| acesulfame-K | food | sweetening agent |
| activ carbon | API / excipient / food | adsorption |
| aspartame | excipient / food | sweetening agent |
| calcium chloride | API / excipient | mineral source |
| calcium lactate | API / excipient | filler - mineral source |
| citric acid, citrate | excipient / food | acidifier |
| cyclamate | food | sweetening agent |
| dye | food | colouring |
| erythritol | food | sugar substitute |
| ethanol | excipient | solvent |
| fat powder mixture | excipient / food | coating - releasing agent |
| flavours | food | taste |
| gluconate | API / excipient | mineral source |
| inulin | food | sugar substitute |
| magnesium chloride | API / excipient | mineral source |
| malic acid | excipient / food | acidifier |
| mannitol | food | sugar substitute |
| phosphates | excipient | filler - mineral source |
| polyethylene glycol | excipient | solutizer |
| polymethacrylate | excipient | coating - polymer film |
| potassium carbonate | excipient | mineral source |
| sodium bicarbonate | API / excipient | decomposing agent |
| sodium carbonate | excipient | mineral source |
| stevia | food | sweetening agent |
| sucralose | excipient / food | sweetening agent |
| sugar | excipient / food | sweetener |
| tartaric acid | excipient / food | acidifier |
| titanium dioxide | excipient / food | white pigment |
| vitamins | API / excipient / food | neutraceuticals |
| xylitol | excipient / food | sugar substitute |
