

## **Connecting Chemistry**

## CLEANING UK & IRELAND

## **KEY FACTS**

- Access to European applications laboratory providing formulation support
- Mixing and Blending facilities
- Dedicated surfactants warehousing and bulk storage facility
- Technical advice and support
- Advice on legislation such as REACh and the Biocidal Products Regulation
- Comprehensive product portfolio
- Worldwide sourcing capabilities through our Global Sourcing Organisation

## BRENNTAG CLEANING IS A LEADING DISTRIBUTOR OF BOTH INDUSTRIAL AND SPECIALTY CHEMICALS TO THE CLEANING MARKET.

Whether our customers are in the market for cleaning products for automobiles, hard surfaces, dishwashing aids, industrial appliances or wooden floors, Brenntag have worked hard to create a comprehensive line-up of products and blends that are effective, safe and user-friendly.

Our team of industry experts are able to offer extensive technical support and provide formulation and product development guidance to our customers through a dedicated European applications laboratory as well as our mixing and blending facilities. Our regulatory and industry experts can offer support on matters such as REACh product registration and the Biocidal Products Regulation.

Through our network of sites situated across the UK and Ireland we can provide excellent logistics and service to cover any requirements.
