

Mobil Delvac™ Super 1300 10W-30 diesel engine oil helps U.S. fleet extend oil drain intervals and improve productivity*

Objective

To improve fleet productivity by extending oil drain intervals and delivering robust engine protection

- Bancroft & Sons
- Grand Prairie, Texas, United States

Situation

Bancroft & Sons is a Federal Motor Carrier operating throughout the United States that specializes in mail hauling. Priding itself on its reliable service, the company recognizes the importance of enhancing productivity and keeping its fleet of 184 trucks on the road for as long as possible. In an effort to further enhance productivity, the company approached ExxonMobil to identify a lubricant solution capable of extending oil drain intervals.

Solution

After assessing fleet details and conducting a full oil drain interval optimization assessment, ExxonMobil engineers recommended switching to **Mobil Delvac™ 1300 Super 10W-30** heavy duty diesel engine oil. Formulated with a blend of high quality basestocks and a tailored additive system that helps deliver excellent wear protection and outstanding oxidative stability, **Mobil Delvac Super 1300 10W-30** diesel engine oil is designed to deliver robust engine protection in severe conditions seen throughout the United States. In addition, ExxonMobil engineers recommended implementing routine **Mobil ServSM Lubricant Analysis** to monitor engine and oil condition.

Company-estimated annual savings of

US \$127K

Results

After converting all 184 of its vehicles to **Mobil Delvac 1300 Super 10W-30** diesel engine oil, Bancroft & Sons experienced extended oil drain intervals from 40,000 miles to 60,000 miles, as well as reduced oil consumption. As a result, the company was able to improve productivity and enhance operational efficiency, generating company-estimated savings of US \$127,328.

Advancing productivity

Our lubrication solutions - high performance lubricants backed by application expertise and services - are designed to help you get the most out of your operations.

Safety

Long oil life can help reduce maintenance and the risks associated with employee-equipment interaction.

Environmental care

Long oil life reduces oil consumption and waste disposal.

Productivity

Mobil Delvac can help increase equipment in-service time, increasing productivity without compromising the protection of engines operating in demanding conditions.
