Each of the Issuer and the Guarantor hereby declares that to the best of its knowledge the information contained in this Prospectus is in accordance with the facts and that this Prospectus makes no omission likely to affect its import.

NOTICE

This Prospectus should be read and understood in conjunction with any information supplement hereto and with any other documents incorporated herein by reference. Full information on the Issuer and any tranche of Notes (each a “**Tranche**”) is only available on the basis of the combination of the Prospectus and the Final Terms relating to such tranche of Notes.

Brenntag has confirmed to Deutsche Bank Aktiengesellschaft (the “**Arranger**”) and to the dealers set forth on the cover page and any additional dealer appointed under the Programme (each a “**Dealer**” and together the “**Dealers**”) that this Prospectus contains to the best of its knowledge all information which is material in the context of the Programme and the issue and offering of Notes thereunder, that the information contained herein is accurate and complete in all material respects and is not misleading, that the opinions and intentions expressed herein are honestly held and based on reasonable assumptions, that there are no other facts the omission of which would make this Prospectus as a whole or any of such information or the expression of any such opinions or intentions misleading; that Brenntag has made all reasonable enquiries to ascertain all facts material for the purposes aforesaid.

To the extent permitted by the laws of any relevant jurisdiction neither the Arranger nor any Dealer accepts any responsibility for the accuracy and completeness of the information contained in this Prospectus or any supplement hereof, or any other document incorporated by reference nor for the information contained in any Final Terms.

The Issuer has undertaken with the Dealers to (i) prepare and publish a supplement to this Prospectus or publish a new Prospectus in the event of any significant new factor, material mistake or material inaccuracy relating to the information included in this Prospectus in respect of Notes issued on the basis of this Prospectus which is capable of affecting the assessment of the Notes and which arises or is noted between the time when this Prospectus has been approved and the time the admission to trading becomes effective, and (ii) where approval of the Luxembourg Stock Exchange of any such document is required, to have such document approved by the Luxembourg Stock Exchange.

No person has been authorised by the Issuer to give any information or to make any representation not contained in or not consistent with this Prospectus or any other document entered into in relation to the Programme or any information supplied by the Issuer or such other information as in the public domain and, if given or made, such information or representation should not be relied upon as having been authorised by the Issuer, the Arranger of the Programme or any of, the Dealers specified in the Section entitled “*General Description of the Programme*” (together with any additional financial institution to be appointed under the Programme from time to time by the Issuer, which appointment may be for a specific issue or on a permanent basis) or any of them.

Neither the Arranger nor any Dealer nor any other person mentioned in this Prospectus, excluding the Issuer and the Guarantor, is responsible for the information contained in this Prospectus or any document incorporated herein by reference or any supplement hereto, or any Final Terms, and accordingly, and to the extent permitted by the laws of any relevant jurisdiction, none of these persons accepts any responsibility for the accuracy and completeness of the information contained in any of these documents.

This Prospectus is valid for 12 months from the date of its approval and it and any supplement hereto as well as any Final Terms reflect the status as of their respective dates of issue. Neither the delivery of this Prospectus,

any supplement hereto, nor any Final Terms nor the offering, sale or delivery of any Note shall, in any circumstances, create any implication that the information contained in such documents is accurate and complete subsequent to their respective dates of issue or that there has been no adverse change in the financial situation of the Issuer or the Guarantor since such date or that any other information supplied in connection with the Programme is accurate at any time subsequent to the date on which it is supplied or, if different, the date indicated in the document containing the same.

The distribution of this Prospectus and any Final Terms and the offering, sale and delivery of the Notes in certain jurisdictions may be restricted by law. Persons into whose possession the Prospectus or any Final Terms comes are required to inform themselves about and to observe any such restrictions. For a description of certain restrictions applicable in the United States of America, the European Economic Area in general and the United Kingdom and Northern Ireland see “**9.2 Selling Restrictions**”. In particular, the Notes have not been and will not be registered under the United States Securities Act of 1933, as amended (the “**Securities Act**”) and may not be offered or sold within the United States of America or to U.S. persons (as defined in Regulation S under the Securities Act (“**Regulation S**”)) except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act. The Notes are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to a U.S. person, except in certain transactions permitted by U.S. tax regulations.

A determination will be made in relation to each issue about whether, for the purpose of the MiFID II Product Governance Rules under Commission Delegated Directive 2017/593, as amended (the “MiFID II Product Governance Rules”) or UK MiFIR Product Governance Rules, any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the MiFID II Product Governance Rules or the UK MiFIR Product Governance Rules.

MIFID II product governance / target market – The Final Terms in respect of any Notes may include a legend entitled “*MiFID II Product Governance*” which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a “**Distributor**”) should take into consideration the target market assessment; however, a Distributor subject to Directive 2014/65/EU (as amended, “**MiFID II**”) is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

UK MiFIR product governance / target market – The Final Terms in respect of any Notes may include a legend entitled “*UK MiFIR Product Governance*” which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes should take into consideration the target market assessment; however, a Distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the “**UK MiFIR Product Governance Rules**”) is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

PRIIPs / Important – EEA Retail Investors – If the Final Terms in respect of any Notes include a legend entitled “*Prohibition of Sales to EEA Retail Investors*”, the Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area (“**EEA**”). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; or (ii) a customer within the meaning of Directive 2016/97/EU, as amended, where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II. Consequently, if the above mentioned legend is included in the relevant Final Terms, no key information document required by Regulation (EU) No 1286/2014 (as amended the “**PRIIPs Regulation**”) for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA or in the UK may be unlawful under the PRIIPs Regulation.

Important – UK Retail Investors – If the Final Terms in respect of any Notes include a legend entitled “*Prohibition of Sales to UK Retail Investors*” the Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom (“**UK**”). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (“**EUWA**”); or (ii) a customer within the meaning of the provisions of the Financial Services and Markets Authority (“**FSMA**”) and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in

point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA. Consequently no key information document required by Regulation (EU) No 1286/2014 as it forms part of domestic law by virtue of the EUWA (the “**UK PRIIPs Regulation**”) for offering or selling the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

The language of this Prospectus is English. The German versions of the English language Terms and Conditions (as defined below) and Guarantee are shown in this Prospectus for additional information. As to form and content, and all rights and obligations of the holders of the Notes (the “**Holders**”), the Guarantor and the Issuer under the Notes to be issued, German is the controlling legally binding language if so specified in the relevant Final Terms. The Issuer accepts responsibility for the information contained in this Prospectus and confirms that the non-binding translation of the Terms and Conditions (as defined below) and Guarantee, either in the German or English language, correctly and adequately reflects the respective binding language version.

The Notes issued pursuant to this Prospectus are complex financial instruments and are not a suitable or appropriate investment for all investors.

This Prospectus may only be used for the purpose for which it has been published.

Neither the Prospectus nor any Final Terms may be used for the purpose of an offer or solicitation by anyone in any jurisdiction in which such offer or solicitation is not authorised or to any person to whom it is unlawful to make such an offer or solicitation.

Neither this Prospectus nor any Final Terms constitutes an offer or an invitation to subscribe for or to purchase any Notes and should not be considered as a recommendation by the Issuer, the Arranger, the Dealers or any of them that any recipient of this Prospectus or any Final Terms should subscribe for or purchase any Notes.

In connection with the issue of any Tranche of Notes under the Programme, the Dealer or Dealers (if any) named as the Stabilisation Manager(s) (or persons acting on behalf of any Stabilisation Manager(s)) named in the applicable Final Terms may over-allot Notes or effect transactions with a view to supporting the market price of the Notes at a level higher than that which might otherwise prevail. However, stabilisation may not necessarily occur. Any stabilisation action may begin on or after the date on which adequate public disclosure of the terms of the offer of the relevant Tranche of Notes is made and, if begun, may cease at any time, but it must end no later than the earlier of 30 days after the issue date of the relevant Tranche of Notes and 60 days after the date of the allotment of the relevant Tranche of Notes. Any stabilisation action or over-allotment must be conducted by the relevant Stabilisation Manager(s) (or persons acting on behalf of any Stabilisation Manager(s)) in accordance with all applicable laws and rules.

In this Prospectus all references to “€”, “EUR”, “Euro”, “euro” and “EURO” are to the currency introduced at the start of the third stage of the European Economic and Monetary Union, and as defined in Article 2 of Council Regulation (EC) No 974/98 of May 3, 1998 on the introduction of the euro, as amended, all references to “U.S. dollars” and “US \$” are to the lawful currency of the United States of America, all references to “British Pound Sterling” and “GBP” are to the lawful currency of the United Kingdom.

Some figures (including percentages) in this Prospectus have been rounded in accordance with customary business practice. In some instances, such rounded figures and percentages may not add up to 100% or to the totals or subtotals contained in this Prospectus. Furthermore, totals and subtotals in tables may differ slightly from unrounded figures contained in this Prospectus due to rounding in accordance with customary business practice. Financial information presented in parentheses denotes the negative of such number presented. In respect of financial information set out in the Prospectus, a dash (“—”) signifies that the relevant figure is not available, while a zero (“0”) or nil signifies that the relevant figure is available but has been rounded to or equals zero.

Tranches of Notes issued under the Programme may be rated or unrated. Where a Tranche of Notes is rated, such rating and the respective rating agency will be specified in the relevant Final Terms. A rating is not a recommendation to buy, sell or hold Notes and may be subject to suspension, reduction or withdrawal at any time by the assigning rating agency.

Any descriptions or references to business figures or developments refer to the financial years 2021 and 2022, unless specified otherwise.

The information on any website included in this Prospectus, except for the websites listed in "*Incorporation by Reference*" below, do not form part of this Prospectus and has not been scrutinised or approved by the Luxembourg Stock Exchange.

Interest amounts payable on Notes with a fluctuating rate of interest ("**Floating Rate Notes**") will be calculated by reference to a specific benchmark which will be provided by an administrator.

As of the date of this Prospectus, the specific benchmark applicable to an issue of Floating Rate Notes has not yet been determined. However, amounts payable under Floating Rate Notes may be calculated by reference to EURIBOR (Euro Interbank Offered Rate) which is provided by the European Money Markets Institute ("**EMMI**"). As of the date of this Prospectus, EMMI appears in the register of administrators and benchmarks established and maintained by the European Securities and Markets Authority ("**ESMA**") pursuant to Article 36 of Regulation (EU) 2016/1011 of the European Parliament and of the Council of June 8, 2016 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds and amending Directives 2008/48/EC and 2014/17/EU and Regulation (EU) No 596/2014 (the "**Benchmarks Regulation**" or "**BMR**"). In case Notes are issued which make reference to another benchmark or there was any change with regard to the above benchmark, the applicable Final Terms will specify the name of the specific benchmark and the relevant administrator. In such case the Final Terms will further specify if the relevant administrator is included in the register of administrators and benchmarks established and maintained by ESMA pursuant to Article 36 of the Benchmarks Regulation or whether the transitional provisions in Article 51 of the Benchmarks Regulation apply (in which case the relevant administrator would not be required to obtain authorisation or registration (or, if the relevant administrator is located outside the EEA, recognition, endorsement or equivalence)).

To the extent not otherwise indicated, the information contained in this Prospectus on the market environment, market developments, growth rates, market trends and competition in the markets in which the Issuer and/or the Guarantor operates is taken from publicly available sources, including, but not limited to, third-party studies or the Issuer's and/or the Guarantor's own estimates that are also primarily based on data or figures from publicly available sources. The information from third-party sources that is cited here has been reproduced accurately. As far as the Issuer and/or the Guarantor is aware and is able to ascertain from information published by such third-party, no facts have been omitted which would render the reproduced information inaccurate or misleading.

Neither the Issuer nor the Guarantor has independently verified the market data and other information on which third parties have based their studies or the external sources on which the Issuer's and/or the Guarantor's own estimates are based. Therefore, neither the Issuer nor the Guarantor assumes any responsibility for the accuracy of the information on the market environment, market developments, growth rates, market trends and competitive situation presented in this Prospectus from third-party studies or the accuracy of the information on which the Issuer's nor the Guarantor own estimates are based. Any statements regarding the market environment, market developments, growth rates, market trends and competitive situation presented in this Prospectus regarding Brenntag Group and its operating business areas contained in this Prospectus are based on own estimates and/or analysis unless other sources are specified.

FORWARD-LOOKING STATEMENTS

This Prospectus contains certain forward-looking statements. A forward-looking statement is a statement that does not relate to historical facts and events. They are based on analyses or forecasts of future results and estimates of amounts not yet determinable or foreseeable. These forward-looking statements are identified by the use of terms and phrases such as "*anticipate*", "*believe*", "*could*", "*estimate*", "*expect*", "*intend*", "*may*", "*plan*", "*predict*", "*project*", "*will*" and similar terms and phrases, including references and assumptions. This applies, in particular, to statements in this Prospectus containing information on future earning capacity, plans and expectations regarding Brenntag Group's business and management, its growth and profitability, and general economic and regulatory conditions and other factors that affect it.

Forward-looking statements in this Prospectus are based on current estimates and assumptions that the Issuer and/or the Guarantor makes to the best of its present knowledge. These forward-looking statements are subject to risks, uncertainties and other factors which could cause actual results, including Brenntag Group's financial condition and results of operations, to differ materially from and be worse than results that have expressly or implicitly been assumed or described in these forward-looking statements. Brenntag Group's business is also subject to a number of risks and uncertainties that could cause a forward-looking statement, estimate or

prediction in this Prospectus to become inaccurate. Accordingly, investors are strongly advised to read the following Sections of this Prospectus: “*Risk Factors*” and “*Brenntag*”. These Sections include more detailed descriptions of factors that might have an impact on Brenntag Group’s business and the markets in which it operates.

By their nature, forward-looking statements involve known and unknown risks and uncertainties because they relate to events and depend on circumstances that may or may not occur in the future. Forward-looking statements are not guarantees of future performance. Brenntag cannot assess the impact of all risk factors on its business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements. Given these risks and uncertainties, investors should not place undue reliance on forward-looking statements as a prediction of actual results.

In light of these risks, uncertainties and assumptions, future events described in this Prospectus may not occur. In addition, neither the Issuer nor the Dealers assume any obligation, except as required by law, to update any forward-looking statement or to conform these forward-looking statements to actual events or developments.

The audited annual financial statements of the Issuer as of and for the financial year ended December 31, 2022, the audited annual financial statements of the Issuer as of and for the financial year ended December 31, 2021, each incorporated by reference in this Prospectus, were prepared in accordance with Dutch GAAP.

The Prospectus contains information sourced from industry reports published by third parties, market research reports and publicly available information of third parties. These publications generally state that the information they contain has originated from sources assumed to be reliable, but that the accuracy and completeness of such information is not guaranteed and that the calculations contained therein are based on assumptions. Such information has not been independently verified by the Issuer or the Guarantor and the Issuer and the Guarantor assume no responsibility for the accuracy of any such information. Therefore, investors should exercise care when considering such information. Market studies are frequently based on information and assumptions that may be neither exact nor appropriate, and their methodology is by nature forward-looking and speculative.

ALTERNATIVE PERFORMANCE MEASURES

This Prospectus contains certain alternative performance measures (“APMs”) which are not recognised financial measures under the International Financial Reporting Standards as issued by the International Accounting Standards Board and as adopted by the European Union (“IFRS”). Such APMs must be considered only in addition to, and not as a substitute for or superior to, financial information prepared in accordance with IFRS included elsewhere in the Prospectus. Investors are cautioned not to place undue reliance on these APMs and are also advised to review them in conjunction with the financial statements of the Issuer and of the Guarantor and related notes.

This Prospectus contains the following alternative performance measures:

- “**Operating Gross Profit**” (the difference between external sales and cost of materials),
- “**Operating EBITDA**” (operating profit plus amortisation of intangible assets as well as depreciation of property, plant and equipment, right-of-use assets and investment property, adjusted for certain items),
- “**Operating EBITA**” (operating profit plus amortisation of intangible assets, adjusted for certain items),
- “**Working Capital**” (trade receivables plus inventories less trade payables),

- Investments in non-current assets (“**CAPEX**”) (other additions to property, plant and equipment as well as other additions to intangible assets),
- “**Free Cash Flow**” (operating EBITDA less payments to acquire intangible assets and property, plant and equipment plus/less changes in working capital less principal and interest payments on lease liabilities); provided that (i) figures related to Free Cash Flow for the financial years until (and including) 2018 included in this Prospectus do not include payments on lease liabilities (i.e., payments on lease liabilities are only deducted in the calculation of Free Cash Flow from (and including) the financial year 2019) and (ii) until (and including) the financial year 2020, CAPEX (instead of payments to acquire intangible assets and property, plant and equipment) was deducted from Operating EBITDA,
- “**Net Financial Liabilities**” or “**Net Debt**” (non-current financial liabilities plus non-current lease-liabilities plus current financial liabilities plus current lease liabilities less cash and cash equivalents), provided that figures related to Net Financial Liabilities or Net Debt for the financial years until (and including) 2018 included in this Prospectus do not include non-current and current lease liabilities; i.e., non-current and current lease liabilities are only included in the calculation of Net Financial Liabilities and Net Debt as from (and including) the financial year 2019, and
- “**Leverage**” (Net Financial Liabilities divided by the last twelve-month Operating EBITDA).

These performance measures are not recognised as financial measure under IFRS (the “**Alternative Performance Measure**”).

The Alternative Performance Measures are presented by the Issuer for the Brenntag Group taken as a whole because it believes that such measures are frequently used by securities analysts, investors and other interested parties in evaluating companies belonging to the same industry as Brenntag Group.

The Alternative Performance Measures are not recognised as measures under IFRS or the German Commercial Code (“**HGB**”) and should not be considered as substitutes for measures of profitability or liquidity determined in accordance with IFRS. The Alternative Performance Measures do not indicate whether cash flow will be sufficient or available for the Brenntag Group’s cash requirements (including debt service), and they may not necessarily develop in line with the Brenntag Group’s operating results. The Alternative Performance Measures are not meant to be indicative of future results. Because not all companies calculate such Alternative Performance Measures in the same way, Brenntag Group’s presentation of the Alternative Performance Measures is not necessarily comparable with similarly entitled measures used by other companies.

In evaluating the Alternative Performance Measures, investors should carefully consider the financial statements of the Guarantor incorporated by reference in this Prospectus. Although certain of this data has been extracted or derived from the financial statements incorporated by reference in this Prospectus, neither the Alternative Performance Measures nor the method of calculation have been audited or reviewed by the independent auditors.

For definitions and the relevance of the use of the Alternative Performance Measures see pages 149 and 151 under caption “*Financial Management System*” and note 28 to the audited consolidated financial statements of Brenntag SE, as of and for the financial year ended December 31, 2022, as included in the Annual Report 2022 of Brenntag SE, which are incorporated by reference into and form part of this Prospectus.

SUSTAINABILITY FINANCING FRAMEWORK AND SECOND PARTY OPINION

Prior to any issuance of Sustainability-linked Notes (as defined below), the Issuer will ensure that both, its sustainability financing framework (the “**Sustainability Financing Framework**”), once established, and the second party opinion relating thereto (the “**Second Party Opinion**”), once available, will be published on its website to support the future issuance of any Sustainability-linked Notes as well as to support the Issuer’s ESG corporate strategy.

The second party opinion providers and providers of similar opinions and certifications are currently not subject to any specific regulatory or other regime or oversight. The Second Party Opinion and any such other opinion or certification is not, nor should be deemed to be, a recommendation by the Issuer, the Guarantor, the Arranger, the Dealers, any green or ESG structuring agent or any second party opinion provider, the Independent Verifier (as defined in the relevant Terms and Conditions) or any other person to buy, sell or hold any Sustainability-linked Notes.

No assurance or representation is given by the Issuer, the Guarantor, the Arranger, the Dealers, any green or ESG structuring agent or any second party opinion provider or the Independent Verifier as to the suitability or reliability for any purpose whatsoever of any opinion, report or certification of any third

party in connection with the offering of Sustainability-linked Notes or the Sustainability Performance Target to fulfil any social, sustainability, sustainability-linked and/or other criteria. Any such opinion, report or certification is not, nor shall it be deemed to be, incorporated in and/or form part of this Prospectus.

Holders of any such Sustainability-linked Notes have no recourse against the Issuer, the Guarantor, the Arranger, the Dealers, any green or ESG structuring agent or any second party opinion provider, the Independent Verifier, the provider of any opinion, certification or verification for the contents of any such opinion, certification or verification, which is only current as of the date it was initially issued. Prospective investors must determine for themselves the relevance of any such opinion, certification or verification and/or the information contained therein and/or the provider of such opinion or certification for the purpose of any investment in the Sustainability-linked Notes.

Deutsche Bank Aktiengesellschaft acts as Arranger in respect of the Programme.

Deutsche Bank Aktiengesellschaft will act as fiscal agent and paying agent (the “**Fiscal Agent**”), and other institutions, all as indicated in the applicable Final Terms, will act as paying agents (the “**Paying Agents**”).

The maximum aggregate principal amount of the Notes at any time outstanding under the Programme will not exceed EUR 3,000,000,000 (or its equivalent in any other currency). The Issuer may increase the amount of the Programme in accordance with the terms of the dealer agreement from time to time.

Notes may be issued on a continuing basis to one or more of the Dealers. Notes may be distributed by way of public or private placements and, in each case, on a syndicated or non-syndicated basis. The method of distribution of each Tranche will be stated in the Final Terms.

Notes may be issued on a continuous basis in Tranches. One or more Tranches, which are expressed to be consolidated and forming a single series and identical in all respects, but having different issue dates, interest commencement dates, issue prices and dates for first interest payments may form a Series (“**Series**”) of Notes. Further Notes may be issued as part of an existing Series. The specific terms of each Tranche will be set forth in the applicable Final Terms.

Notes will be issued in such denominations as may be agreed between the Issuer and the relevant Dealer(s) and as indicated in the applicable Final Terms save that the minimum denomination of the Notes will be, if in Euro, EUR 100,000, if in any currency other than Euro, in an amount in such other currency at least equivalent to EUR 100,000 at the time of the issue of Notes. Notes will be issued with a maturity of twelve months or more. The Notes will be freely transferable in accordance with the rules and regulations of the relevant Clearing System.

The specific terms of each Tranche will be set forth in the applicable Final Terms. The Final Terms of Notes listed on the official list and admitted to trading on the Euro MTF operated by the Luxembourg Stock Exchange will be displayed on the website of the Luxembourg Stock Exchange (www.luxse.com). In the case of Notes listed on any other stock exchange, the Final Terms will be displayed on the website of Brenntag (www.brenntag.com).

Notes may be issued at an issue price which is at par or at a discount to, or premium over, par, as stated in the applicable Final Terms. The issue price for Notes to be issued will be determined at the time of pricing on the basis of a yield which will be determined on the basis of the orders of the investors which are received by the Dealers during the offer period. Orders will specify a minimum spread and may only be confirmed at or above such yield. The resulting spread will be used to determine an issue price, all to correspond to the yield.

The yield for Notes with fixed interest rates (excluding Sustainability-linked Notes) will be calculated by the use of the ICMA method, which determines the effective interest rate of notes taking into account accrued interest on a daily basis.

The Risk Factors included into this Prospectus are limited to risks which are (i) specific to Brenntag Finance B.V. as Issuer, Brenntag SE as Guarantor as well as to the Notes, and (ii) material for taking an informed investment decision. They are presented in a limited number of categories depending on their nature. In each category the most material risk factor is mentioned first.

Application has been made to list Notes on the official list of the Luxembourg Stock Exchange and to admit the Notes to trading on the Euro MTF operated by the Luxembourg Stock Exchange. Notes may further be issued under the Programme which may be listed on any other stock exchange or will not be listed on any stock exchange.

Notes will be accepted for clearing through one or more Clearing Systems as specified in the applicable Final Terms. These systems will include those operated by Clearstream Banking AG, Frankfurt (Mergenthalerallee 61, 65760 Eschborn, Federal Republic of Germany), Clearstream Banking S.A. (42 Avenue JF Kennedy, 1855 Luxembourg, Grand Duchy of Luxembourg) and Euroclear Bank SA/NV (Boulevard du Roi Albert II, 1210 Brussels, Belgium). Notes denominated in euro or, as the case may be, such other currency recognised from time to time for the purposes of eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem are intended to be held in a manner, which would allow Eurosystem eligibility. For that purpose the Notes will be deposited initially upon issue with in the case of (i) a new global note either by Clearstream Banking S.A., Luxembourg or Euroclear Bank SA/NV as common safekeeper or, (ii) a classical global note by Clearstream Banking AG, Frankfurt. It does not necessarily mean that the Notes will be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem either upon issue or at any or all times during their life. Such recognition will depend upon satisfaction of the Eurosystem eligibility criteria.

The Issuer may issue sustainability-linked Notes under the Programme where the interest rate or the final redemption amount will be linked to reaching the sustainability performance target (the "**Sustainability Performance Target**") in relation to a key performance indicator (a "**KPI**") that is relevant and material to the Issuer's business (the "**Sustainability-linked Notes**"). The financial and/or structural characteristics of Sustainability-linked Notes, as set out in detail in the Terms and Conditions (as defined below), may vary depending on whether or not the selected KPI reaches the predefined Sustainability Performance Target.

The Issuer plans to adopt and publish a "Sustainability Financing Framework" prior to the issue of any Sustainability-linked Notes. Any Sustainability Financing Framework will be available on the Issuer's website. The specific terms and conditions of the Sustainability-linked Notes and the Sustainability Financing Framework will be aligned to any applicable guidelines and market standards such as the Sustainability-Linked Bonds Principles, administered by the International Capital Market Association ("**ICMA**"). The relevant Second Party Opinion will also be available on the Issuer's website.

1.2 Issue Procedures

1.2.1 General

The Issuer and the relevant Dealer(s) will agree on the terms and conditions of the Notes applicable to each particular Tranche (the “**Conditions**”). The Conditions will be constituted by the relevant set of Terms and Conditions of the Notes set forth below (the “**Terms and Conditions**”) as further specified by the provisions of the Final Terms as set out below.

1.2.1.1 Options for sets of Terms and Conditions

A separate set of Terms and Conditions applies to each type of Notes, as set forth below. The Final Terms provide for the Issuer to choose among the following Options:

Option I – Terms and Conditions for Notes with fixed interest rates;

Option II – Terms and Conditions for Notes with floating interest rates.

1.2.1.2 Documentation of the Conditions

The Issuer may document the Conditions of an individual issue of Notes in either of the following ways:

- The Final Terms shall be completed as set out therein. The Final Terms shall determine which of Option I or Option II, including certain further options contained therein, respectively, shall be applicable to the individual issue of Notes by replicating the relevant provisions and completing the relevant placeholders of the relevant set of Terms and Conditions as set out in the Prospectus in the Final Terms. The replicated and completed provisions of the set of Terms and Conditions shall constitute the Conditions, which will be attached to each global note representing the Notes of the relevant Tranche.
- Alternatively, the Final Terms shall determine which of Option I or Option II and of the respective further options contained in each of Option I or Option II are applicable to the individual issue by only referring to the specific Sections of the relevant set of Terms and Conditions as set out in the Prospectus. The Final Terms will specify that the provisions of the Final Terms and the relevant set of Terms and Conditions as set out in the Prospectus, taken together, shall constitute the Conditions. Each global note representing a particular Tranche of Notes will have the Final Terms and the relevant set of Terms and Conditions as set out in the Prospectus attached.

1.2.1.3 Determination of Options / Completion of Placeholders

The Final Terms shall determine which of Option I or Option II shall be applicable to the individual issue of Notes. Each of the sets of Terms and Conditions of Option I or Option II contains also certain further options (characterised by indicating the optional provision through instructions and explanatory notes set out in the square brackets within the text of the relevant set of Terms and Conditions as set out in the Prospectus) as well as placeholders (characterised by square brackets which include the relevant items) which will be determined by the Final Terms as follows:

The Issuer will determine which options will be applicable to the individual issue either by replicating the relevant provisions in the Final Terms or by reference of the Final Terms to the Sections of the relevant set of Terms and Conditions as set out in the Prospectus. If the Final Terms do not replicate or refer to an alternative or optional provision it shall be deemed to be deleted from the Conditions.

1.2.1.4 Completion of Placeholders

The Final Terms will specify the information with which the placeholders in the relevant set of Terms and Conditions will be completed. In case the provisions of the Final Terms and the relevant set of Terms and Conditions, taken together, shall constitute the Conditions. The relevant set of Terms and Conditions shall be deemed to be completed by the information contained in the Final Terms as if such information were inserted in the placeholders of such provisions.

In that case, all instructions and explanatory notes and text set out in square brackets in the relevant set of Terms and Conditions and any footnotes and explanatory text in the Final Terms will be deemed to be deleted from the Conditions.

1.2.1.5 *Controlling Language*

The Issuer will elect either German or English to be the controlling language of the respective Conditions.

2 RISK FACTORS

The following is a disclosure of risk factors that may affect the ability of the Issuer and the Guarantor to fulfil its obligations under the Notes and/or the Guarantee, respectively, and that are material to the Notes in order to assess the market risks associated with the Notes. Prospective investors should consider these risk factors prior to deciding to purchase the Notes.

The sequence in which the following risk factors are listed is not an indication of their likelihood to occur or of the extent of their commercial consequences. Prospective investors should consider all information provided in this Prospectus and consult with their own professional advisers (including their financial, accounting, legal and tax advisers) if they consider it necessary. In addition, investors should be aware that the risks described may combine and thus intensify one another.

Should one or more of the risks described below materialise, this may have a material adverse effect on the cash flows, results of operations and financial condition of the Issuer, the Guarantor and the other members of the Brenntag Group. Moreover, if certain of these risks occur, the market value of the Notes and the likelihood that the Issuer and the Guarantor will be in a position to fulfil their obligations under the Notes and/or the Guarantee may decrease, in which case prospective investors could lose all or part of their investments.

Words and expressions defined in “Terms and Conditions” of the Notes below shall have the same meanings in this section.

2.1 Risk Factors regarding the Issuer and the Guarantor

2.1.1 Risks Relating to Brenntag Finance B.V.

Brenntag Finance B.V.’s operations depend on the ability of Brenntag SE and other members of Brenntag Group to meet their payment obligations under loans provided to them by Brenntag Finance B.V. All debt securities of Brenntag Finance B.V. are wholly and unconditionally guaranteed by Brenntag SE in respect of principal and interest payments, which includes the Guarantee as stated in this Prospectus covering the due payment of principal and interest and any other amounts payable in respect of any and all Notes that may be issued by the Issuer under the Programme from time to time. If Brenntag SE or other members of the Brenntag Group are unable to meet their payment obligations, Brenntag SE may become unable to meet its obligations under the Guarantee and the Issuer faces significant financial risks, may become unable to make payments of principal and interest and may have to cease its operations.

2.1.2 Risks Relating to the Business of the Brenntag Group

2.1.2.1 *Brenntag is exposed to demand fluctuations and other developments in the broader economy, including but not limited to the manufacturing sector.*

The chemical distribution industry is exposed to the level of industrial and manufacturing activity, as well as to levels of government spending in the relevant markets. Brenntag’s business is susceptible to downturns in the regions in which it operates, including Europe, Middle East and Africa (“EMEA”), North America, Latin America and Asia Pacific (including China). Despite the mentioned geographic diversification Brenntag’s profit margins, as well as overall demand for its products, could decline as a result of factors outside its control, including economic recessions, inflation, fluctuations in interest and exchange rates, and changes in the fiscal or monetary policies of governments.

In particular, Russia’s military actions against Ukraine and the sanctions and export-control measures instituted in response have contributed and could continue to contribute to increased inflationary pressures (including increased prices for oil and natural gas), gas supply shortages, supply chain disruptions, market volatility and economic uncertainty, particularly in Europe. In addition, further increases in inflation rates and actions taken by central banks to combat rising inflation could undermine economic growth and contribute to regional or global economic recessions, cause declines in consumer spending and confidence and increase borrowing costs. While Brenntag has been able to pass on cost increases to its customers in the past, this might prove to be challenging in the future. In addition, the outbreak of public health crises, including any resurgence of the COVID-19 pandemic and measures taken in response, could lead to further economic uncertainty.

General economic conditions and macroeconomic trends could negatively affect overall demand for chemicals, as well as the creditworthiness of Brenntag’s customers. If overall demand for chemical products declines significantly, it could have a substantial negative impact on Brenntag’s sales and profitability. If the

creditworthiness of Brenntag's customers declines, Brenntag would face an increased credit risk with respect to its trade receivables. Specific major events affecting the markets in which Brenntag operates, including but not limited to natural disasters and major national or international political and/or monetary developments could also have an adverse impact on Brenntag's regional business or results of operations, which could, individually or in combination with developments in other regions, have a material adverse effect on the Brenntag Group's business, financial condition and results of operations.

2.1.2.2 *Brenntag faces intense competition, both from other third-party distributors and from chemical producers, in many of the markets in which it operates.*

Brenntag faces intense competition. Part of Brenntag's product portfolio is made to industry specifications and are interchangeable with products that other third-party chemical distributors also offer. Especially with regard to industrial chemicals, the chemicals Brenntag distributes often are available from a number of suppliers and distributors. The competitive pressure Brenntag faces is particularly strong in sectors and markets where local competitors hold strong positions. Furthermore, during economic downturns, chemical producers or distributors could decide to flood the market with products to gain liquidity when faced with declining profits. Such practices, or increased competition from existing or new competitors, could depress the profit margins on Brenntag's products and services, which could have an adverse effect on its business, financial condition and results of operations.

In addition, in some of the markets in which Brenntag operates and in respect of certain products, large chemical producers sometimes choose to distribute their products directly to end-user customers, rather than to rely on a third-party distributor, such as Brenntag. While Brenntag believes that it is not dependent on sales of any particular supplier's products, if the market were to move generally toward more chemical distribution insourcing, Brenntag may find itself underbid by suppliers, or products may become unavailable to Brenntag. Any of these developments could have a material adverse effect on Brenntag's business, financial condition and results of operations.

2.1.2.3 *Brenntag operates in a consolidating market environment.*

Brenntag operates in an industry which is highly fragmented on a global scale, but in which there has been a trend toward consolidation in recent years. Consolidations of Brenntag's competitors into larger companies may jeopardise the strength of Brenntag's positions in one or more of the markets in which Brenntag operates and any advantages Brenntag currently enjoys due to the comparative scale of its operations. Furthermore, consolidation in other markets under certain circumstances may make market entries increasingly difficult and impact Brenntag's growth opportunities. Losing some of those advantages could adversely affect Brenntag's business, financial condition and results of operations, as well as its growth potential.

2.1.2.4 *Brenntag might be unable to successfully integrate or achieve the expected benefits from past or future acquisitions and its growth strategy could be unsuccessful.*

During the past several years Brenntag has completed a number of acquisitions as a means of expanding its business, and it is an important part of Brenntag's strategy to pursue targeted acquisitions in the future. To the extent Brenntag is successful in making acquisitions, Brenntag may have to expend substantial amounts of cash, incur debt, assume loss-making divisions and incur other types of expenses. In particular, future acquisitions could result in increased indebtedness and significant commitments of management resources. Brenntag might not achieve the cost savings, synergies or other benefits that it hopes to achieve from acquisitions. Brenntag cannot guarantee that the ongoing integration of recently acquired operations or the integration of any future acquisitions will yield benefits to the Group that are sufficient to justify the expenses Brenntag incurred or will incur in completing such acquisitions. Brenntag could also incur extraordinary or unexpected legal, regulatory, contractual, labour or other costs as a consequence of acquisitions, in particular with regard to acquisitions in emerging markets. Furthermore, its future acquisitions might not be as successful as the acquisitions Brenntag has completed in the past. The competitive situation might change due to a higher price environment for acquisitions, putting the current growth strategy at risk with respect to profitability. In addition, Brenntag's broader growth strategy could be unsuccessful and might fail to achieve anticipated benefits for the Group's future earnings and profitability, which could also lead to an adverse effect on its financial condition and results of operations.

2.1.2.5 *In connection with acquisitions, Brenntag might inadvertently acquire or retain actual or potential liabilities or defects.*

Acquisitions are an important part of Brenntag's strategy, and Brenntag engages in a relatively large number of these transactions in the course of its business. In connection with these transactions, Brenntag cannot rule out

that, despite the due diligence it performs, Brenntag will not inadvertently or unknowingly acquire, as the case may be, actual or potential liabilities or defects, including but not limited to the following: legal claims, including but not limited to third-party liability and other tort claims; claims for breach of contract; employment-related claims; infringements of export control regulations; environmental liabilities, conditions or damage; hazardous materials or liability for hazardous materials; or tax liabilities. If Brenntag acquires or retains, as the case may be, any of these or other liabilities, and such liabilities are not adequately covered by an applicable and enforceable indemnity, keep well, guarantee or similar agreement from a creditworthy counterparty, Brenntag could become liable for them. Such liabilities, if they materialise, could have a material adverse effect on Brenntag's business, financial condition and results of operations.

2.1.2.6 *Brenntag may incur incremental indebtedness or use cash on balance sheet to finance future acquisitions.*

Brenntag's strategy includes making of selective bolt-on acquisitions that match defined criteria. Brenntag may choose to finance the consummation of such acquisitions through the use of cash on hand or by incurring additional indebtedness. Potential reduction of cash on hand or increase in indebtedness may increase the amount of debt Brenntag has to refinance and may lead to an increase of Brenntag's leverage ratio. If Brenntag fails to integrate the acquisitions successfully, these risks would intensify one another and might have a material adverse effect on Brenntag's business, financial condition and results of operations.

2.1.2.7 *Brenntag might not be able to implement the content and/or meet the planned schedule in relation to its transformation programmes.*

In recent years, Brenntag has implemented and is continuing to implement several transformation programmes. While the transformation programmes are aimed at strengthening Brenntag's competitive position, the precise scope and content of such transformation programmes is undergoing continuous development. If Brenntag is unable to successfully execute such programmes according to plan, or if Brenntag's plans are not well received by its customers and suppliers, this could negatively impact Brenntag's business relationships. In addition, Brenntag's focus on transformation measures could result in inefficiencies in day-to-day operations and unplanned employee departures and resistance. If the aforementioned risks materialise this could have a material adverse effect on Brenntag's business, financial condition and results of operations.

2.1.2.8 *Brenntag may fail to comply with environmental, social and governance (ESG) standards and expectations.*

The Brenntag Group must increasingly meet environmental, social and governance ("ESG") standards and expectations regarding environmental concerns (e.g., climate change and sustainability), social concerns (e.g., diversity and human rights), and corporate governance concerns (e.g., employee relations) when making business and financing decisions. As part of the Group risk management, Brenntag also analyses aspects of corporate social responsibility ("CSR"), such as environmental matters, employee matters, human rights, anti-corruption and bribery matters and risks related to those matters. Brenntag may not always be able to identify and adequately assess the relevant concerns, which may result in failure to meet ESG or its own CSR standards and expectations of stakeholders or the public. In addition, Brenntag may not be able to meet the ESG targets and objectives which it has set for itself and communicated to the public. Any such failure could adversely impact the Group's reputation and may make an investment in the Notes ineligible for certain investors. At the same time, compliance with certain ESG standards may pose challenges to the Group's business and lead to additional costs.

Furthermore, costs associated with meeting ESG and CSR standards and expectations, as well as the physical impact of climate change and legal risks for those deemed responsible for climate change, may negatively affect the financial performance of Brenntag's customers and other counterparties.

2.1.2.9 *Brenntag might not be able to pass through cost increases.*

The prices and availability of the chemicals Brenntag delivers, as well as its costs, fluctuate over time. Brenntag might not always be able to pass through increases in the prices it pays for chemicals or increases in its costs base, including transportation cost increases (for example, due to rising fuel prices), to customers.

2.1.2.10 *Brenntag could fail in managing inventories properly.*

In order to successfully manage its inventories of the chemicals it carries, Brenntag must estimate the demand of its customers and purchase supplies in its divisions and various regional segments that substantially correspond to the expected demand in those regional markets. If Brenntag overestimates demand and

purchases too much of a particular chemical, it faces a risk that the price of that chemical will fall, leaving Brenntag with inventory that it cannot profitably sell. If Brenntag underestimates demand and does not purchase sufficient quantities of a particular chemical and prices of that chemical rise, it could be forced to purchase that chemical at an unprofitably high price in order to meet its customers' demand for that chemical. If either or both of these situations occur on a large-scale, it could have a material adverse effect on the Group's business, financial condition and results of operations.

Furthermore, Brenntag faces the risk of dissatisfied customers and possible damage to its reputation if Brenntag is short on inventories of a particular chemical and is therefore unable to meet its customers' demand for that chemical. Access to certain chemicals can be difficult due to various reasons, such as relationship management issues with certain suppliers, especially in regions and countries where markets are less globalised or where Brenntag has a smaller presence, or disruptions in the supply chain due to a number of reasons, including natural disasters, pandemics, economic or political instability and tariffs. In addition, Brenntag faces the risk of varying purchase prices in particular with regard to strategically important raw materials, which could not only affect Brenntag's supply chain and inventories but could also negatively affect Brenntag's cost structure and competitiveness. In addition, particularly in cases of pronounced cyclical in the industry, it can be difficult to determine in advance what its customers' requirements for particular chemicals will be, and Brenntag could be asked to deliver larger-than-expected quantities of a particular chemical on short notice. If for any reason Brenntag experiences widespread, systemic difficulties in filling orders of its customers, Brenntag could face the risk of customer dissatisfaction, possible loss of customers, or paying a producer a higher price in order to obtain chemicals on short notice.

2.1.2.11 Accidents, environmental damage, misuse of Brenntag's products, major or systemic delivery failures or adverse health effects or other harm could result in damage to its reputation and substantial remedial obligations.

Brenntag's business depends to a significant extent on the trust of its customers, suppliers and employees in its reputation for quality, safety and environmental responsibility. Actual or alleged instances of safety deficiencies, inferior product quality, delivery of the incorrect product, exposure to hazardous materials resulting in illness, injury or other harm to persons, environment or property, as well as the misuse or misappropriation of its products, such as for use in terrorist activities or in the processing of illegal drugs, or of environmental damage caused by Brenntag or its products, could damage Brenntag's reputation in the markets in which it operates and could lead to customers and suppliers becoming less willing to work with Brenntag. Any of these events, outcomes or allegations could also lead to the Group becoming subject to substantial legal claims, and Brenntag could incur substantial legal fees and other costs in defending such legal claims.

Accidents or other incidents alleged to have taken place at Brenntag's facilities or to otherwise involve any Group companies, personnel or operations could also result in claims for damages by third parties. Since many of the chemicals that Brenntag handles are potentially hazardous, Brenntag is faced with the ongoing risk of explosions, fires and other hazards that can cause property damage, illness, physical injury or death. If such events occur, whether through Brenntag's own fault, through pre-existing conditions at its facilities, through the fault of a third party, or through a natural disaster or other event outside its control, Brenntag's reputation could suffer significant damage. Brenntag could also become financially responsible, as a result of environmental or other laws or by court order, for substantial monetary damages or expensive remedial obligations, including those resulting from third-party lawsuits or environmental clean-up obligations. The amount of any costs, including fines or damage payments that Brenntag might incur under such circumstances, could substantially exceed any insurance Brenntag has to cover such losses.

An actual or alleged improper or late delivery of a product to a customer could result in legal claims against Brenntag and damage Brenntag's reputation in the market. Brenntag's business depends to a significant extent on its customers' and suppliers' trust in its reputation for reliability, quality, safety and environmental responsibility. Actual or alleged instances of safety deficiencies or inferior product quality, late delivery, or damage caused by Brenntag or Brenntag's products could harm Brenntag's reputation and lead to customers and suppliers becoming less willing to work with Brenntag.

Any of these risks, if they materialise, could significantly harm Brenntag's reputation, expose Brenntag to substantial liabilities and have a material adverse effect on Brenntag's business, financial condition and results of operations.

2.1.2.12 *Brenntag's business is subject to many operational risks for which Brenntag might not be adequately insured.*

Brenntag is exposed to operational risks including accidents, environmental damage and other events which could potentially lead to interruptions of Brenntag's business operations and/or to Brenntag incurring significant costs. Although Brenntag attempts to cover these risks with insurance policies in instances and to the extent that Brenntag's management deems appropriate, Brenntag cannot guarantee that it will not incur losses beyond the limits, or outside the coverage, of its insurance policies. From time to time, various types of insurance for companies involved in chemical distribution have not been available on commercially acceptable terms or, in some cases, have been unavailable. Brenntag cannot assure investors that in the future it will be able to maintain existing coverage, or that premiums, which have increased significantly in the last several years, will not continue to increase in the future.

2.1.2.13 *Brenntag relies on the proper functioning of its computer and data processing systems.*

Brenntag's ability to keep its business operating depends on the operation of its computer and data processing and telecommunications systems. Since computer and data processing systems are susceptible to malfunction and interruption (including due to equipment damage, power outages, computer viruses, in particular targeted hacking attacks by criminal organisations, and a range of other hardware, software and network problems), Brenntag cannot guarantee that it will not experience such malfunctions or interruptions in the future. Although Brenntag's IT system is diversified, including multiple server locations and a range of software applications for different regions and functions, and monitored by using Group-wide IT security standards, a significant or large-scale malfunction or interruption of Brenntag's computer or data processing systems could adversely affect its ability to manage and keep its operations running efficiently, particularly in the country, region, or functional area in which the malfunction occurs. If a malfunction results in a wider or sustained disruption to Brenntag's business, it could have a material adverse effect on Brenntag's business, financial condition and results of operations.

Brenntag continuously invests in the further development and security of the software used, especially on ERP systems and digital platforms. While this opens up opportunities for improved business process support, risks arise in the course of implementation and development processes, e.g. from requirements that may change over time. Up until such new systems will have been successfully implemented, Brenntag must rely on the functionality of its legacy systems. In some of Brenntag's group companies, in particular in the U.S., these legacy systems can only be administered by a limited number of employees. Therefore, failure to retain the respective employees might have an adverse effect on Brenntag's business operations.

Furthermore, Brenntag has observed a global increase of cybersecurity threats and higher levels of professionalism in cybercrime, which pose a risk to the security of products, systems and networks and the confidentiality, availability and integrity of its data. The Group's IT environment could be compromised, e.g., by attacks on its own or its IT service providers' networks that may also include cloud services, social engineering, data manipulation in critical applications and a loss of critical resources. There can be no assurance that Brenntag's own or its IT service providers' measures will address these threats under all circumstances. Any such attack or disruption may adversely affect Brenntag's business operations.

2.1.2.14 *Brenntag is dependent on its ability to attract talent and retain key management, technical, sourcing and sales personnel, as well as on continuing good relations with organised labour.*

Brenntag's management and employees are critical to the successful development and implementation of Brenntag's business strategy. If Brenntag fails to retain and attract the necessary key personnel to fill management and technical roles, it will adversely affect Brenntag's ability to operate its business effectively and could have a material adverse effect on its results of operations. In addition, Brenntag's business results depend largely upon the experience, knowledge of local market dynamics, technical know-how and long-standing customer and producer relationships of its sales and sourcing personnel. Furthermore, the implementation of transformation programmes could increase the risk of unplanned employee departures, especially among high performers. If Brenntag is unable to retain or hire effective personnel to fill these roles at economically reasonable compensation levels, it could materially and adversely affect Brenntag's ability to operate profitably and grow its business. Brenntag's business and results of operations could also be negatively affected in the event of strikes or other disputes with organised labour.

2.1.2.15 Brenntag is dependent on the performance of its decentralised management.

Brenntag has largely relied on a decentralised management system, which provides its local managers with a degree of discretion over their business units' operations. For example, responsibility for compliance with all applicable regulations are allocated to decentralised business units, and their management is responsible for making operational decisions within certain limits, including in relation to their product portfolio, sourcing, pricing and other sales-related decisions. While Brenntag is in the process of transferring responsibility for certain functions from local managers to Group management and local managers are bound by various guidelines, local managers will continue to have a large degree of responsibility over their business units' operations in the future. To the extent that responsibility remains with local management, inadequate controls over Brenntag's decentralised management system may have a material adverse effect on divisional and regional operations. The transfer of certain responsibilities to Group management, however, could fail to produce the intended benefits or cause Brenntag to fail to react to developments at the level of its business units with sufficient speed.

2.1.2.16 Brenntag's consolidated balance sheet includes significant intangible assets, which could become impaired.

Brenntag carries significant intangible assets on its consolidated balance sheet. As of December 31, 2022, the intangible assets on Brenntag's consolidated balance sheet totalled EUR 3,459.3 million, including EUR 3,319.8 million in goodwill and trademarks. Goodwill is tested for recoverability at least annually and is subject to impairment based on the outcomes of such tests. For example, in 2022 an impairment loss in the amount of EUR 38.1 million was recognised in relation to the Brenntag Essentials Latin America segment. Although Brenntag currently does not expect that further intangible assets will be impaired, Brenntag cannot guarantee that no impairment will occur, particularly in the event of a substantial deterioration of its future prospects. If Brenntag's intangible assets become significantly impaired, it could have a material adverse effect on Brenntag's financial condition.

2.1.2.17 Brenntag is exposed to change in foreign exchange and interest rates.

A considerable portion of Brenntag's assets, liabilities, sales, expenses and earnings is denominated in currencies other than euro (for example, the U.S. dollar). Brenntag's exposure to the U.S. dollar is significantly greater than the exposure relating directly to the Group's business operations in the United States, since many of Brenntag's operations outside the United States are conducted in U.S. dollars or currencies that are linked to the U.S. dollar.

When preparing its consolidated financial statements, results in other currencies must be translated into euro. Fluctuations in the values of these other currencies with respect to the euro have had and could continue to have a significant impact on Brenntag's financial results expressed in euro. A weakening of the U.S. dollar (or of other currencies which Brenntag converts into dollars for financial reporting purposes) could reduce the euro-denominated amounts in Brenntag's profit and loss statement. Currency fluctuations can also have a significant impact on Brenntag's balance sheet, particularly shareholders' equity, when Brenntag translates the financial statements of its subsidiaries located outside of the euro-zone into euro. Further foreign exchange rate risks exist in Brenntag's companies that carry balance sheet items in a different currency than the local functional currency.

Brenntag does not hedge against the translation risks that arise from the translation of financial statements of subsidiaries with functional currencies other than the euro. In relation to transaction risks, Brenntag generally seeks to match the expenses incurred and income generated in the respective currency and (to the extent possible and practicable) hedge remaining risk positions. Therefore, the foreign currency risks Brenntag faces are primarily translational rather than transactional.

Brenntag is also exposed to risks related to changes in interest rates. Fluctuations in interest rates affect Brenntag's interest expense on existing debt and its cost of new financing. Although Brenntag makes use of instruments with fixed interest rates (and has used interest rate hedging instruments in the past and could use such instruments in the future), further increases in interest rates (particularly due to central banks' measures to fight inflation) could still adversely affect Brenntag's financial condition and results of operations. Falling interest rates, on the other hand, could adversely affect Brenntag's pension liabilities.

2.1.2.18 Risk of Corporate Breakup

Brenntag is currently under pressure by certain shareholders who are calling for a rapid corporate split of the Group into a basic chemicals division and a specialities division in order to increase profit margins and boost

the share price. At the annual general meeting 2023, the activists wanted to enter the supervisory board with their own candidates but did not succeed.

It is expected, however, that the activist investors will not rest and further pursue their goal of a corporate spin-off of the company. Such a corporate spin-off of Brenntag could lead to a significant loss in equity, a wide spread of other risks (e.g. tax risks) and could adversely affect Brenntag's financial condition and results of operations. Even if a spin-off could be avoided, the dispute with the shareholders ties up management capacities which as a consequence are unavailable for the organisational and strategic development of the Group.

2.1.3 Risks Related to Brenntag's Financial Profile

2.1.3.1 *Brenntag's indebtedness imposes restrictions on its business.*

The terms of the Credit Facility agreement, the 2025 Notes, the 2029 Notes and the 2025/2027/2029 Promissory Notes (each as defined in "BUSINESS OF THE BRENNTAG GROUP—Material Contracts") contain covenants which restrict the activities of the Issuer and Brenntag and its subsidiaries.

In particular the Credit Facility contains covenants which bind Brenntag SE and such subsidiaries as borrowers. These covenants restrict or limit, among other things, the ability of the subsidiaries of Brenntag SE to incur additional indebtedness, the ability of the members of Brenntag Group to create liens, transfer or sell assets or merge or consolidate with other entities. If Brenntag breaches any of these covenants and is unable to cure the breach or to obtain a waiver from the lenders, Brenntag would be in default under the terms of the Credit Facility, and no further funds would be available under the Credit Facility which is Brenntag's main liquidity facility. Furthermore, the lenders under the Credit Facility would be entitled to terminate the Credit Facility. Such default could result in a default under other financing arrangements and could cause or permit lenders under the relevant financing arrangements to accelerate such financing arrangements, causing the amounts owed under those arrangements to become due. In the case of such acceleration, there can be no assurance that Brenntag's assets would be sufficient to repay Brenntag's indebtedness in full and that Brenntag could continue to make other payments Brenntag is obligated to make. Investors should be aware that the Notes are not subject to equivalent restrictions or covenants and that while other lenders, e.g. under the Credit Facility, may terminate their relevant financing arrangements in case any of the covenants thereunder are breached, Holders would in such case not have a right to terminate the Notes.

2.1.3.2 *Brenntag's working capital needs may increase in the future.*

The amount of working capital Brenntag requires to run its business may increase in the future. For example, Brenntag could require additional working capital to accommodate revenue growth or to increase its inventory to mitigate risks related to supply chain disruptions or the weaker financial condition of its suppliers. If Brenntag's working capital needs increase, the amount of free cash Brenntag has at its disposal to devote to other uses could decrease. A decrease in free cash could, among other things, limit Brenntag's flexibility, including its ability to make capital expenditures and to execute identified acquisitions, thus limiting growth potential. Increases in working capital requirements could therefore have a material adverse effect on Brenntag's business, financial condition and results of operations.

2.1.3.3 *Brenntag may face increasing cash outflows as a result of pension plan commitments to current and former employees.*

The Brenntag Group has obligations to current and former employees as a result of pension commitments. Some of the pension obligations are covered by plan assets. The plan assets are subject to capital market risks, as a portion of them is invested in funds and equities. Any changes in relevant inputs, such as an increase in life expectancy or salaries, may lead to higher cash outflows and higher present values of the defined benefit obligation. In addition, Brenntag makes contributions to defined benefit pension plans maintained by multiple employers in certain regions. If other participating employers do not meet their payment obligations, Brenntag may be liable for the obligations of those employers. If such risks were to materialise, this could have a material adverse effect on Brenntag's business, financial condition and results of operations.

2.1.4 Legal Risks

2.1.4.1 *Brenntag's international operations expose it to a variety of economic, political, legal and other risks.*

Brenntag is active in 72 countries and therefore faces numerous risks related to its international business operations, including in relation to:

- exchange controls and currency restrictions;
- currency fluctuations, devaluations and inflation, including hyperinflation;
- tariffs and trade barriers;
- export duties and quotas;
- international trade sanctions and embargos;
- diverse systems of law and regulation, particularly regarding environmental issues;
- changes in tax and other laws and regulations;
- exposure to possible expropriation, nationalisation or other government actions;
- restrictions on its ability to repatriate cash from its subsidiaries;
- restrictions in certain countries on investments by foreign companies;
- divergent labour regulations and cultural expectations regarding employment;
- divergent cultural expectations regarding industrialisation, international business and business relationships; and
- threats to the security of its facilities and personnel, including the threat of terrorist attacks.

Furthermore, Brenntag relies on a decentralised management system to appropriately serve local markets. Although Brenntag exercises what it believes to be an appropriate level of central governance, control and supervision, a substantial amount of operational flexibility is required at the local level to perform day-to-day business activities, including in relation to regulatory compliance. Brenntag cannot guarantee that its decentralised management system will not result in difficulties in the various countries in which it operates. The materialisation of any of these risks could significantly harm Brenntag's reputation and have a material adverse effect on its business, financial condition and results of operations.

2.1.4.2 Brenntag is exposed to risks related to litigation and other legal and regulatory actions.

Brenntag is subject to the risk of litigation, other legal claims and proceedings, and regulatory enforcement actions in the ordinary course of its business. The results of legal proceedings cannot be predicted with certainty. Brenntag cannot guarantee that the results of current or future legal proceedings will not materially harm its business, reputation or brand. In addition, losses incurred in connection with current or future legal proceedings could exceed any insurance coverage or provisions Brenntag may have set aside in respect of such proceedings. The occurrence of any of these events could have a material adverse effect on Brenntag's business, financial condition or results of operations.

2.1.4.3 Brenntag could incur substantial legal fees and potential sanctions in connection with antitrust matters.

Brenntag is exposed to the risk that governmental bodies may take legal action against it under antitrust laws. Brenntag is currently subject to pending antitrust actions in France, and Brenntag could become subject to further public or private proceedings in the future. If Brenntag is found to be in violation of antitrust laws, it could incur substantial fines or other penalties and may be required to divest assets (potentially at prices significantly below their market value or below their carrying value in Brenntag's financial statements). The legal fees Brenntag could face in these proceedings could also be significant. Such consequences could have a material adverse effect on Brenntag's business, financial condition and results of operations.

2.1.4.4 Brenntag could incur potential fines in connection with data protection breaches.

As a company with operations worldwide, Brenntag is also subject to laws and regulations relating to data protection. Breaches of data protection regulations may lead to substantial penalties and fines. Furthermore, the disclosure of data protection breaches could lead to substantial reputational damage or a loss of trust. Any such consequences of one or more data protection breaches could have a material adverse effect on Brenntag's business, financial condition and results of operations.

2.1.4.5 *Brenntag is exposed to potential changes in laws and regulations.*

Brenntag's operations involve the management, storage, handling and transport of chemicals. As a result, Brenntag is subject to extensive environmental, health and safety laws and regulations in multiple jurisdictions, including those governing the management, storage and transportation of chemicals, prevention of air, water and ground contamination and the clean-up of contaminated sites, including any spills that may result from the transportation of chemicals. Some aspects of Brenntag's business activities require that it holds a wide range of permits and licenses.

Laws and regulations differ significantly across the jurisdictions in which Brenntag operates and are continuously evolving. Changes in laws and regulations could adversely affect Brenntag by imposing more burdensome requirements, increasing Brenntag's costs of doing business and reducing profitability. For example, the introduction of the REACH or Biocidal Products regulations in the European Union (which require, among other things, registration of chemical substances with the European Chemical Agency and impose requirements for end-user documentation and authorisations for certain chemicals), has increased Brenntag's cost of doing business.

National and international measures to fight climate change and to protect the environment have led to increasingly stringent laws and regulations. In addition, an increasing number of laws, regulations and customer demands require Brenntag to monitor and perform due diligence in relation to its supply chain, which imposes further compliance-related costs. Brenntag will have to devote significant management and capital resources and build significant organisational knowledge with regards to compliance programs and measures. The increase of compliance costs could therefore have a material adverse effect on Brenntag's business, financial conditions and results of operations.

2.1.4.6 *Many of Brenntag's contracts with suppliers and customers are terminable upon notice.*

Brenntag's purchases and sales of chemicals are usually not made pursuant to long-term contractual commitments. While some of Brenntag's contracts have exclusivity provisions, these provisions could be void under applicable law or Brenntag may be unable to enforce them for legal or business reasons. Many of Brenntag's contracts with both customers and suppliers are terminable without cause upon notice to Brenntag from the supplier or customer. Since Brenntag's relationships with many suppliers are not governed by long-term contracts, or are governed by contracts that can be terminated on short notice, Brenntag could be unable to meet its obligations to deliver chemicals to its customers, which could harm its business relationships and reputation. In addition, Brenntag's sales margins could be negatively affected if contractual terms are renegotiated to its disadvantage. Any of these developments could adversely affect Brenntag's business, financial condition and results of operations.

2.1.4.7 *Brenntag's tax burden could increase due to changes in tax laws or their application or interpretation, or as a result of current or future tax audits.*

Brenntag's tax burden depends on the tax laws and their application and interpretation in the jurisdictions in which it operates. Changes in tax laws or in their interpretation or application could increase Brenntag's tax burden.

Certain Group companies are subject to ongoing tax audits. Moreover, many companies have not yet been subject to tax audits in respect of their most recent financial years and might therefore be subject to tax audits in the future. Ongoing and future tax audits could lead to an increase in Brenntag's tax burden. In Germany, for example, two Group companies (Brenntag GmbH and BCD Chemie GmbH) received tax assessments in the amount of EUR 140.5 million. These tax assessments relate to the financial years 2014 to 2017 in the case of BCD Chemie GmbH and to the financial years 2016 to 2017 in the case of Brenntag GmbH. Brenntag has paid the amount in full, but is challenging the assessment.

Some Group companies have tax loss carry forwards, which could be forfeited in whole or part, or become subject to greater restrictions on their utilisation. The tax burden for future periods would increase if tax loss carry forwards cannot be used to off-set profits. In addition, Brenntag Group companies in several jurisdictions are subject to rules limiting the tax deductibility of interest expenses. Such companies could be unable to deduct the full amount of interest expenses, and rules governing the deductibility of interest expenses could become more restrictive in the future and result in an increase of non-tax deductible interest expenses. Furthermore, Brenntag has undertaken measures in relation to the reorganisation of its corporate structure in the past and may take such measures in the future. Although Brenntag considers the tax consequences of such measures, tax authorities could question some or all of the positions that Brenntag has taken. Finally, many jurisdictions in which Brenntag operates have implemented transfer pricing regulations, and it cannot be ruled out that the tax

authorities in those jurisdictions will challenge Brenntag's transfer pricing policy. The materialisation of any of the foregoing risks could have an adverse effect on Brenntag's business, financial condition and results of operations.

2.1.4.8 Rating agencies could downgrade the Guarantor's credit rating, which could materially increase the Group's financing costs and detrimentally affect customer relationships.

Credit ratings are crucial for the Group's competitive position. The Guarantor has received credit ratings from Standard & Poor's Global Ratings Europe Limited and Moody's Deutschland GmbH. Rating agencies review their ratings and assessment methods continuously and could downgrade the Guarantor's ratings, whether on the basis of changes in the Group's results of operations and financial condition or as a result of changes in the assessment of the Group's industry in general. A downgrade in one or more of the Group's ratings could negatively affect the Group's business volumes and its competitive position. Additionally, the Group might find it more difficult to access the capital markets and could incur higher borrowing costs. Furthermore, a rating downgrade in connection with a Change of Control event could lead to the termination of existing Notes and the outstanding promissory loan agreement of Brenntag (*Schuldscheindarlehen*). A rating downgrade could therefore have a material adverse effect on the business, results of operations and financial condition of the Guarantor.

2.2 Risk Factors regarding the Notes

The risk factors regarding the Notes are presented in the following categories depending on their nature with the most material risk factor presented first in each category:

1. Risks related to the nature of the Notes
2. Risks related to specific Terms and Conditions of the Notes
3. Other related Risks

2.2.1 Risks related to the nature of the Notes

2.2.1.1 Holders are subject to the risk of a partial or total failure of the Issuer and the Guarantor to make interest and/or redemption payments.

Any person who purchases the Notes is relying on the creditworthiness of the Issuer and the Guarantor and has no rights against any other person. Holders are subject to the risk of a partial or total failure of the Issuer to make interest and/or redemption payments that the Issuer is obliged to make under the Notes and/or the Guarantor to make interest and/or redemption payments that the Guarantor is obligated to make under the Guarantee. The worse the creditworthiness of the Issuer and the Guarantor, the higher the risk of loss. A materialisation of the credit risk may result in partial or total failure of the Issuer and/or the Guarantor to make interest and/or redemption payments under the Notes or the Guarantee, respectively.

In addition, even if the likelihood that the Issuer and/or the Guarantor will be in a position to fully perform all obligations under the Notes or the Guarantee, as applicable, when they fall due actually has not decreased, market participants could nevertheless be of that opinion. Market participants may in particular be of such opinion if market participants' assessment of the creditworthiness of corporate debtors in general or debtors operating in the industries sector adversely change. If any of these risks occur, third parties would only be willing to purchase the Notes for a lower price than before the materialisation of said risk. The market value of the Notes may therefore decrease.

2.2.1.2 The Notes will be effectively subordinated to the Group's debt to the extent such debt is secured by assets that are not also securing the Notes.

The Terms and Conditions and the Guarantee only require the Issuer and the Guarantor, respectively, to secure the Notes equally if the Issuer or the Guarantor, as the case may be, provides security for the benefit of other Capital Market Indebtedness (as defined in the Terms and Conditions). Furthermore, there are substantial carve-outs and exemptions from this undertaking.

To the extent the Issuer, the Guarantor or any of the Guarantor's subsidiaries provide security interests over their respective assets for the benefit of (a) Capital Market Indebtedness in line with such carve-outs and

exemptions or (b) other indebtedness, in both cases without also securing the Notes, the Notes will be effectively junior to such debt to the extent of such assets.

As a result of the foregoing, holders of (present or future) secured debt of the Issuer, the Guarantor or any of the Guarantor's subsidiaries may recover disproportionately more on their claims than the Holders in an insolvency, bankruptcy or similar proceeding. The Issuer and/or the Guarantor may not have sufficient assets remaining to make payments under the Notes or the Guarantee, respectively.

2.2.1.3 *The Notes are structurally subordinated to creditors of the Guarantor's subsidiaries*

The Notes will not be guaranteed by any of the subsidiaries of the Guarantor. Generally, claims of creditors of a subsidiary, including trade creditors, secured creditors, and creditors holding indebtedness and guarantees issued by the subsidiary, will have priority with respect to the assets and earnings of the subsidiary over the claims of creditors of its parent company. In the event of a liquidation, winding-up or dissolution or a bankruptcy, administration, reorganisation, insolvency, receivership or similar proceeding of any subsidiary of the Guarantor, such subsidiary will pay the holders of its own debt (including holders of third-party debt which such subsidiaries have guaranteed) before they would be able to distribute any of their assets to the Guarantor. As a result, the Guarantor may not have sufficient assets to make payments on the Guarantee.

2.2.1.4 *No restriction on the amount of debt which the Issuer or the Guarantor may incur in the future or on securing other financial indebtedness*

The negative pledge contained in the Terms and Conditions and the Guarantee does not prevent the Issuer or the Guarantor, respectively, from incurring financial indebtedness. Such issuance of further debt or securing debt may reduce the amount recoverable by the Holders upon winding-up or insolvency of the Issuer or the Guarantor and may negatively affect the Issuer's ability to perform its obligations under the Notes and/or the Guarantor's ability to perform its obligations under the Guarantee. In such case, the market price of the Notes may be negatively affected and the Holders might not be able to realise the expected yield from the investment in the Notes.

2.2.1.5 *Liquidity Risk*

Application has been made to list Notes to be issued under the Programme on the official list of the Luxembourg Stock Exchange and to admit the Notes to trading on the Euro MTF operated by the Luxembourg Stock Exchange. Notes issued under the Programme may also be listed on other or further stock exchanges. In addition, the Programme provides that Notes may not be listed at all. Regardless of whether the Notes are listed or not, there can be no assurance that a liquid secondary market for the Notes will develop or, if it does develop, that it will continue. The fact that the Notes may be listed does not necessarily lead to greater liquidity as compared to unlisted Notes. If Notes are not listed on any exchange, pricing information for such Notes may, however, be more difficult to obtain, which may affect the liquidity of the Notes adversely. In an illiquid market, an investor might not be able to sell his Notes at any time at fair market prices. The possibility to sell the Notes might additionally be restricted by country specific reasons.

2.2.1.6 *Market Price Risk*

The development of market prices of the Notes depends on various factors, such as changes of market interest rate levels or the lack of or excess demand for the relevant type of Notes. The holders of Notes are therefore exposed to the risk of an unfavourable development of market prices of their Notes which materialise if the holders sell the Notes prior to the final maturity of such Notes. If a holder of Notes decides to hold the Notes until final maturity, the Notes will be redeemed at the amount set out in the relevant Final Terms.

A holder of a note with a fixed interest rate ("Fixed Rate Note"), including Sustainability-linked Notes, is exposed to the risk that the price of such Note falls as a result of changes in the market interest rate. While the nominal interest rate of a Fixed Rate Note as specified in the applicable Final Terms is fixed during the life of such Note, the current interest rate on the capital market ("Market Interest Rate") typically changes on a daily basis. As the Market Interest Rate changes, the price of a Fixed Rate Note also changes, but in the opposite direction. If the Market Interest Rate increases, the price of a Fixed Rate Note typically falls, until the yield of such Note is approximately equal to the Market Interest Rate. If the Market Interest Rate falls, the price of a Fixed Rate Note typically increases, until the yield of such Note is approximately equal to the Market Interest Rate. If the Holder of a Fixed Rate Note holds such Note until maturity, changes in the Market Interest Rate are without relevance to such holder as the Note will be redeemed at a specified redemption amount, usually the principal amount of such Note.

A holder of a note with a variable interest rate ("Floating Rate Note") is exposed to the risk of fluctuating interest rate levels and uncertain interest income. Fluctuating interest rate levels make it impossible to determine the yield of Floating Rate Notes in advance. Neither the current nor the historical value of the relevant floating rate should be taken as an indication of the future development of such floating rate during the term of any Notes.

2.2.1.7 Early redemption in case of certain events of default subject to a 20 per cent. Quorum

The Terms and Conditions provide that, in case of certain events of default, any notice declaring the Notes due and payable shall become effective only when the Fiscal Agent has received such default notices from Holders representing at least 20 per cent. of the aggregate principal amount of the Series of Notes then outstanding. Holders should be aware that, as a result, they may not be able to accelerate their Notes upon the occurrence of certain events of default, unless the required quorum of Holders with respect to the Series of Notes delivers default notices.

2.2.1.8 Amendments to the Terms and Conditions by resolution of the Holders and appointment of a joint representative

Since the Conditions for a Series of Notes may be amended by the Issuer with consent of the relevant Holders by way of a majority resolution in a Holders' Meeting or by a vote not requiring a physical meeting (*Abstimmung ohne Versammlung*) as described in Sections 5 et seqq. of the German Act on Issues of Debt Securities (*Gesetz über Schuldverschreibungen aus Gesamtmissionen*, "SchVG"), the Issuer may subsequently amend the Conditions with the consent of the majority of Holders as described in § 13 of the Terms and Conditions, which amendment will be binding on all Holders of the relevant Series of Notes, even on those who voted against the change. As the relevant majority for Holders in relation to the relevant Series of Notes resolutions is generally based on votes cast, rather than on the aggregate principal amount of the relevant Series of Notes outstanding, any such resolution may technically be passed with the consent of less than a majority of the aggregate principal amount of the relevant Series of Notes outstanding.

Therefore, a Holder is subject to the risk of being outvoted by a majority resolution of the Holders. As such majority resolution is binding on all Holders of a particular Series of Notes, certain rights of such Holder against the Issuer under the Conditions may be amended or reduced or cancelled, even for Holder who have declared their claims arising from the Notes due and payable but who have not received payment from the Issuer prior to the amendment taking effect, which may have significant negative effects on the value of the Notes and the return from the Notes.

The Conditions of a Series of Notes may provide for the appointment of a Holders' representative. A Holders' representative for a Series of Notes may also be appointed or dismissed by a majority resolution of the Holders of such Series. If a joint representative is appointed a Holder may be deprived of its individual right to pursue and enforce a part or all of its rights under the Conditions against the Issuer, such right passing to the Holders' joint representative who is then exclusively responsible to claim and enforce the rights of all the Holders.

The same provisions and corresponding risks apply *mutatis mutandis* to the Guarantee.

2.2.2 Risks related to specific Terms and Conditions of the Notes

2.2.2.1 Risk of Early Redemption

The applicable Final Terms will indicate whether the Issuer may have the right to call the Notes prior to maturity (optional call right) on one or several dates or within several call redemption periods determined beforehand or whether the Notes will be subject to early redemption upon the occurrence of an event specified in the applicable Final Terms e.g. change of control or in the case of Fixed Rate Notes upon publication of a transaction trigger notice (early redemption event) as set out in the Terms and Conditions. Furthermore, the Issuer has a right for termination in the case of Floating Rate Notes if a Replacement Rate, an Adjustment Spread, if any, or the Replacement Rate Adjustments cannot be determined following a Rate Replacement Event as set out in the Terms and Conditions. In addition, the Issuer will always have the right to redeem the Notes for reasons of minimal outstanding amount or if it is required to pay additional amounts (gross-up payments) on the Notes for reasons of taxation as set out in the Terms and Conditions. If the Issuer redeems the Notes prior to maturity or the Notes are subject to early redemption due to an early redemption event, a holder of such Notes is exposed to the risk that due to such early redemption his investment will have a lower than expected yield. In this event an investor will not be able to reinvest the redemption proceeds in comparable Notes with a higher yield. It should be noted, however, that the Issuer may exercise any optional call right irrespective of Market Interest Rates on any call date or within the relevant call redemption periods respectively.

2.2.2.2 Specific risks regarding Floating Rate Notes linked to a Reference Rate

The interest rates of Floating Rate Notes are linked to reference rates such as the Euro Interbank Offered Rate (“EURIBOR”) which are deemed to be “benchmarks” (each a “Benchmark” and together, the “Benchmarks”) and which are the subject of recent national, international, and other regulatory guidance and proposals for reform.

Following the implementation of such potential reforms, the manner of administration of Benchmarks may change, with the result that they perform differently than in the past, or Benchmarks could be eliminated entirely, or become otherwise unavailable, or there could be consequences which cannot be predicted. Any changes to a Benchmark as a result of the BMR or other initiatives could have a material adverse effect on the costs of obtaining exposure to a Benchmark or the costs and risks of administering or otherwise participating in the setting of a Benchmark and complying with any such regulations or requirements. Such factors may have the effect of discouraging market participants from continuing to administer or participate in certain Benchmarks, trigger changes in the rules or methodologies used in certain Benchmarks or lead to the disappearance of certain Benchmarks.

As regards EURIBOR, the new hybrid calculation of EURIBOR has already been adapted to the requirements of the BMR that takes into account current transaction data, historical transaction data and modelled data based on expert opinions. However, since reference rates relying on expert opinion and modelled data are widely regarded as potentially less representative than reference rates determined in a fully transaction-based approach and because central banks, supervisory authorities, expert groups and relevant markets thus are developing towards preferred use of risk-free overnight interest rates with a broad and active underlying market as reference rates, there is a risk that the use or provision of EURIBOR may come to an end in the medium or long term.

In this respect it is to be noted that the European Money Markets Institute, as administrator of EURIBOR has launched a forward-looking term rate EFTERM as alternative to and as a new fallback rate for EURIBOR. It is therefore currently not foreseeable whether EURIBOR will continue to exist permanently any beyond 2025.

Investors should be aware that, if a Benchmark were discontinued or otherwise unavailable, the rate of interest on Floating Rate Notes which are linked to or which reference such Benchmark will be determined for the relevant interest period by the fallback provisions applicable to such Notes. The Terms and Conditions of Floating Rate Notes distinguish between temporary and permanent fallback arrangements.

If, in accordance with the provisions contained in the Terms and Conditions, a Replacement Reference Rate has been determined, fallback arrangements will include the possibility that:

- (i) the relevant rate of interest could be determined by reference to a Replacement Rate determined by an independent advisor (the “Independent Advisor”); and
- (ii) such Replacement Reference Rate may be adjusted (if required) by an Adjustment Spread (as defined in § 3 of the Terms and Conditions for Notes with floating rates in Option II) to be applied to the Replacement Reference Rate.

However, the Issuer may be unable to appoint an independent advisor at commercially reasonable terms, using reasonable endeavours, or the Independent Advisor may not be able to determine a Replacement Reference Rate, an Adjustment Spread, if any, or the Rate Replacement Adjustments (as defined in § 3 of the Terms and Conditions for Notes with floating interest rates in Option II) in accordance with the Terms and Conditions of the Floating Rate Notes. In such circumstances, the rate of interest for the relevant interest period will be the rate of interest applicable as at the last preceding interest determination date before the occurrence of the Rate Replacement Event, or, where the Rate Replacement Event occurs before the first interest determination date, the rate of interest will be the initial rate of interest. This could result in Notes linked to or referencing the relevant Benchmark performing differently (which may include payment of a lower rate of interest) than they would do if the relevant Benchmark were to continue to apply, or if a Replacement Rate could be determined.

Ultimately, if the Issuer does not use its right for termination pursuant to § 3 of the Terms and Conditions in Option II, it could result in the same Benchmark rate being applied for the determination of the relevant rates of interest until maturity of the Floating Rate Notes, effectively turning the floating rate of interest into a fixed rate of interest. In the case that the same Benchmark will be applied for the determination of the relevant rates of interest until maturity of the Floating Rate Notes, a Holder would no longer participate in any favourable movements of market interest rates.

Also, even if a Replacement Reference Rate was determined and an Adjustment Spread, if any, was applied to that Replacement Reference Rate, such an Adjustment Spread may not be effective to reduce or eliminate economic prejudice to Holders. The application of an Adjustment Spread, if any, to a Replacement Reference Rate may still result in Floating Rate Notes originally linked to or referencing a Benchmark to perform differently (which may include payment of a lower rate of interest) than they would if the Benchmark were to continue to apply in its current form.

In addition, the Independent Advisor may also establish that, consequentially, other amendments to the Terms and Conditions of the Floating Rate Notes are necessary to enable the operation of the Replacement Reference Rate (which may include, without limitation, adjustments to the applicable business day convention, the definition of business day, the interest determination date, the day count fraction and any methodology or definition for obtaining or calculating the Replacement Reference Rate). No consent of the Holders shall be required in connection with effecting any relevant Replacement Reference Rate or any other related adjustments and/or amendments described above.

Any such consequences could have a material adverse effect on the value of and return on any such Notes. Investors should note that, in the case of a replacement of a Benchmark the Independent Advisor will have discretion to adjust the Replacement Reference Rate in the circumstances described above. Any such adjustment could have unexpected commercial consequences and there can be no assurance that, due to the particular circumstances of each Holder, any such adjustment will be favourable to each Holder.

Investors should be aware that they face the risk that any changes to the relevant Benchmark may have a material adverse effect on the value or the liquidity of, and the amount payable under Notes whose rate of interest is linked to a Benchmark.

Finally, the BMR (as amended on 13 February 2021) confers implementing powers on the European Commission to designate a replacement rate to critical benchmarks such as EURIBOR which are referenced in financial instruments such as the Notes. Even though such designation power in principle only applies to financial instruments which do not – unlike the Notes – contain a respective fallback provision, there can be no assurance that the fallback provisions of the Notes would be considered suitable. Accordingly, there is a risk that any Notes linked to or referencing to a Benchmark would be transitioned to a replacement rate designated by the European Commission. Furthermore, the Independent Advisor could nevertheless take into consideration a legally designated replacement rate by the European Commission in accordance with the fallback provisions of the Notes. However, there is no guarantee that the European Commission will use its designation power and accordingly, a replacement rate designated by the European Commission may not even be available.

2.2.2.3 *Currency Risk of Notes denominated in foreign currencies*

A holder of a Note denominated in a foreign currency is exposed to the risk of changes in currency exchange rates which may affect the yield of such Note. A change in the value of any foreign currency against the Euro, for example, will result in a corresponding change in the Euro value of a Note denominated in a currency other than Euro. If the underlying exchange rate falls and the value of the Euro correspondingly raises, the price of the Note expressed in Euro falls.

The development of currency exchange rates is highly uncertain and depends on a multitude of factors, such as the offer and demand on international foreign exchange markets, macro-economic developments in the relevant countries like the development of inflation and interest rate levels, the convertibility of and the risk associated with financial investments the respective currency or the extent of speculative transactions which generally constitute a significant part of the dealings on the foreign exchange markets. In addition, foreign exchange rates are influenced by political factors, including actions taken by the relevant governments, monetary authorities and central banks in the relevant countries. Such political actions may include the introduction of regulatory restrictions, the imposition of taxes, the replacement of a currency by a new one, amendments to currency features through currency appreciation or devaluation, or the imposition of exchange controls. Any of those factors may negatively affect the exchange rate and/or the availability of the respective currency and may put the Issuer in a position where it is unable to make a payment in the foreign currency.

Moreover, holders of Notes denominated in a foreign currency are exposed to the risk of not being able to convert payments under the Notes into euro due to exchange controls imposed in relation to the foreign currency (transfer risk).

In addition, government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable currency exchange rate. As a result, investors may receive less interest or principal than expected, or no interest or principal.

2.2.2.4 Notes may not be a suitable investment for all investors seeking exposure to assets with sustainability characteristics.

Although the rate of interest or the redemption amount relating to a specific Series of Sustainability-linked Notes might be subject to upward adjustment as specified in the relevant Conditions, such Sustainability-linked Notes may not satisfy an investor's requirement or any future legal or quasi legal standards for investments in assets with sustainability characteristics.

The application of the adjusted rate of interest as well as the increased redemption amount in respect of Sustainability-linked Notes depends on the occurrence of a Step-up Event / Adjustment Event (as defined in the relevant Terms and Conditions). A Step-up Event / Adjustment Event occurs, *inter alia*, if the Verification Assurance Certificate (as defined in the relevant Terms and Conditions) fails to confirm that the performance of the KPI (as specified in the relevant Terms and Conditions) meets/exceeds the corresponding Sustainability Performance Target (as specified in the relevant Terms and Conditions) on one or two, as the case may be, Target Observation Date(s) (as defined in the relevant Terms and Conditions). The definition of the Sustainability Performance Target may be inconsistent with investor requirements or expectations or other definitions relevant to renewable energy and/or greenhouse emissions.

Adverse environmental or social impacts may occur during the design, construction and operation of any investments the Issuer makes in furtherance of its targets or such investments may become controversial or criticised by activist groups or other stakeholders. Option I comprises the set of Terms and Conditions that apply to Tranches of Notes with fixed interest rates.

Option II comprises the set of Terms and Conditions that apply to Tranches of Notes with floating interest rates.

The set of Terms and Conditions for each of these Options contains certain further options, which are characterised accordingly by indicating the respective optional provision through instructions and explanatory notes set out in square brackets within the set of Terms and Conditions.

In the Final Terms the Issuer will determine, which of Option I or Option II including certain further options contained therein, respectively, shall apply with respect to an individual issue of Notes, either by replicating the relevant provisions or by referring to the relevant options.

To the extent that upon the approval of the Prospectus the Issuer had no knowledge of certain items which are applicable to an individual issue of Notes, this Prospectus contains placeholders set out in square brackets which include the relevant items that will be completed by the Final Terms.

Copies of the Final Terms may be obtained free of charge at the specified office of the Fiscal Agent and at the principal office of the Issuer provided that, in the case of Notes which are not listed on any stock exchange, copies of the relevant Final Terms will only be available to Holders of such Notes.]

[Im Fall, dass die Optionen, die für eine einzelne Emission anwendbar sind, nur über einen Verweis in den Endgültigen Bedingungen auf die im Satz der Anleihebedingungen enthaltenen Optionen I und II bestimmt werden, gilt Folgendes:

Die Bestimmungen dieser Anleihebedingungen gelten für diese Schuldverschreibungen so, wie sie durch die Angaben der beigefügten endgültigen Bedingungen (die “**Endgültigen Bedingungen**”) vervollständigt werden. The Issuer may, without the consent of the Holders, if no payment of principal of or interest on any of the Notes is in default, at any time substitute for the Issuer either the Guarantor or any Affiliate of the Guarantor as principal debtor in respect of all obligations arising from or in connection with this issue (the “**Substitute Debtor**”) provided that:

- (a) the Substitute Debtor assumes all obligations of the Issuer in respect of the Notes;
- (b) the Substitute Debtor have obtained all necessary authorisations and may transfer to the Fiscal Agent in the currency required hereunder and without being obligated to deduct or withhold any taxes or other duties of whatever nature levied by the country in which the Substitute Debtor or the Issuer has its domicile or tax residence, all amounts required for the fulfilment of the payment obligations arising under the Notes;

- (e) there shall have been delivered to the Fiscal Agent an opinion or opinions of lawyers of recognised standing to the effect that subparagraphs (a), (b), (c) and (d) above have been satisfied.

Für die Zwecke dieses § 10 bedeutet „verbundenes Unternehmen“ ein verbundenes Unternehmen im Sinne von § 15 Aktiengesetz.

(2) *Bekanntmachung*. Jede Ersetzung ist gemäß § 12 bekanntzumachen.

(3) *Änderung von Bezugnahmen*. Im Fall einer Ersetzung gilt jede Bezugnahme in diesen Anleihebedingungen auf die Emittentin ab dem Zeitpunkt der Ersetzung als Bezugnahme auf die Nachfolgeschuldnerin und jede Bezugnahme auf das Land, in dem die Emittentin ihren Sitz oder Steuersitz hat, gilt ab diesem Zeitpunkt als Bezugnahme auf das Land, in dem die Nachfolgeschuldnerin ihren Sitz oder Steuersitz hat.

Außerdem gilt im Falle der Ersetzung in § 7 und § 5 (2) eine alternative Bezugnahme auf die Niederlande als aufgenommen (zusätzlich zu der Bezugnahme nach Maßgabe des vorstehenden Satzes auf das Land, in dem die Nachfolgeschuldnerin ihren Sitz oder Steuersitz hat).

Die Emittentin ist berechtigt, die Globalurkunde und die Anleihebedingungen ohne Zustimmung der Gläubiger anzupassen, soweit dies erforderlich ist, um die Wirkungen der Ersetzung nachzuvollziehen. Furthermore, in the event of such substitution, in § 7 and § 5 (2) an alternative reference to the Netherlands shall be deemed to have been included in addition to the reference according to the preceding sentence to the country of domicile or residence for taxation purposes of the Substitute Debtor.

The Issuer is authorised to adapt the Global Note and the Conditions of Issue without the consent of the Holders to the extent necessary to reflect the changes resulting from the substitution. Appropriately adjusted Global Notes or Conditions of Issue will be deposited with or on behalf of the Clearing System.

§ 11 FURTHER ISSUES, PURCHASES AND CANCELLATION

(1) *Further Issues*. The Issuer may from time to time, without the consent of the Holders, and without limiting its right to issue notes of other series, issue further Notes having the same terms and conditions as the Notes in all respects (or in all respects except for the issue date, interest commencement date and/or issue price) so as to form a single Series with the Notes.

(2) *Purchases*. The Issuer may at any time purchase Notes in the open market or otherwise and at any price. Notes purchased by the Issuer may, at the option of the Issuer, be held, resold or surrendered to the Fiscal Agent for cancellation.

(1) *Amendment of the Terms and Conditions.* The Issuer may agree with the Holders on amendments to the Terms and Conditions by virtue of a majority resolution of the Holders pursuant to Sections 5 et seqq. of the German Act on Issues of Debt Securities (Gesetz über

Anleihebedingungen vereinbaren, wenn die Gläubiger einen entsprechenden Beschluss gefasst haben. Hierbei können die Gläubiger durch Beschluss der in § 13 (2) genannten Mehrheit insbesondere Änderungen zustimmen, welche den Charakter der Anleihebedingungen wesentlich verändern, einschließlich der in § 5 (3) SchVG genannten Maßnahmen, aber mit Ausnahme der Ersetzung der Emittentin, welche ausschließlich den Bestimmungen von § 10 unterliegt. Ein ordnungsgemäß gefasster Mehrheitsbeschluss ist für alle Gläubiger verbindlich. Ein Mehrheitsbeschluss der Gläubiger, der nicht gleiche Bedingungen für alle Gläubiger vorsieht, ist unwirksam, es sei denn, die benachteiligten Gläubiger stimmen ihrer Benachteiligung ausdrücklich zu.

(2) *Mehrheitserfordernisse*. Vorbehaltlich der Bestimmungen des folgenden Satzes und vorausgesetzt, die Anforderungen an das Quorum sind erfüllt, können die Gläubiger Beschlüsse mit einfacher Mehrheit der abgegebenen Stimmen fassen. Beschlüsse, welche den Charakter der Anleihebedingungen wesentlich verändern, insbesondere in den Fällen des § 5 (3) Nrn. 1 bis 9 SchVG, bedürfen der qualifizierten Mehrheit von mindestens 75% der abgegebenen Stimmen (die „**Qualifizierte Mehrheit**“).

(3) *Beschlüsse der Gläubiger*. Beschlüsse der Gläubiger können nach Wahl der Emittentin im Wege der Abstimmung ohne Versammlung, wie sie in § 18 und §§ 5 ff. des SchVG vorgesehen ist, oder im Wege einer Gläubigerversammlung, wie sie in §§ 5 ff. des SchVG vorgesehen ist, gefasst werden. Gläubiger, die insgesamt 5% des ausstehenden Nennbetrages der Schuldverschreibungen halten, können schriftlich das Abhalten einer Abstimmung verlangen, § 9 SchVG. Die Abstimmung wird von einem Notar geleitet, der von der Emittentin bestimmt wird oder, wenn der gemeinsame Vertreter, wie untenstehend definiert, die Abstimmung anberaumt hat, vom gemeinsamen Vertreter. Die Aufforderung zur Stimmabgabe durch den Abstimmungsleiter enthält weitere Ausführungen hinsichtlich der zu fassenden Beschlüsse und der Abstimmungsmodalitäten. Der Gegenstand der Abstimmung sowie die vorgeschlagenen Beschlüsse werden den Gläubigern zusammen mit der Aufforderung zur Stimmabgabe bekannt gegeben.

(4) *Stimmrecht*. Gläubiger müssen den Nachweis ihrer Berechtigung zur Teilnahme an der Abstimmung zum Zeitpunkt der Stimmabgabe durch eine Bescheinigung der Depotbank, wie in § 14 (3) geregelt und die Vorlage einer Sperranweisung der depotführenden Bank zugunsten der Zahlstelle als Hinterlegungsstelle für den Zeitraum der Stimmabgabe nachweisen.

(5) *Gemeinsamer Vertreter*. **[Im Fall, dass kein Gemeinsamer Vertreter in den**

Schuldverschreibungen aus Gesamtemissionen - "SchVG"), as amended from time to time. In particular, the Holders may consent to amendments which materially change the substance of the Terms and Conditions, including such measures as provided for under Section 5 (3) of the SchVG, but excluding a substitution of the Issuer, which is exclusively governed by the provisions in § 10, by resolutions passed by such majority of the votes of the Holders as stated under § 13 (2). A duly passed majority resolution shall be binding upon all Holders. A majority resolution of the Holders which does not provide for identical conditions for all Holders is void, unless Holders who are disadvantaged have expressly consented to their being treated disadvantageously.

(2) *Majority*. Except as provided by the following sentence and provided that the quorum requirements are being met, the Holders may pass resolutions by simple majority of the voting rights participating in the vote. Resolutions which materially change the substance of the Terms and Conditions, in particular in the cases of Section 5 (3) numbers 1 through 9 of the SchVG, may only be passed by a majority of at least 75 per cent. of the voting rights participating in the vote (a **“Qualified Majority”**).

(3) *Resolutions of Holders*. Resolutions of the Holders shall be passed at the election of the Issuer by means of a vote without a meeting (*Abstimmung ohne Versammlung*) in accordance with Section 18 and Sections 5 et seqq. of the SchVG or in a Holders' meeting in accordance with Sections 5 et seqq. of the SchVG. Holders holding Notes in the total amount of 5 per cent. of the outstanding principal amount of the Notes may request, in writing, the holding of a vote pursuant to Section 5 et seqq. of the SchVG. The vote will be chaired by a notary appointed by the Issuer or, if the Holders' Representative (as defined below) has convened the vote, by the Holders' Representative. The request for voting as submitted by the chairman (*Abstimmungsleiter*) will provide for the further details relating to the resolutions and the voting procedure. The subject matter of the vote as well as the proposed resolutions shall be notified to Holders together with the request for voting.

(4) *Voting rights*. Holders must demonstrate their eligibility to participate in the vote at the time of voting by means of a special confirmation of the Custodian in accordance with § 14 (3) hereof and by submission of a blocking instruction by the Custodian for the benefit of the Paying Agent as depository (*Hinterlegungsstelle*) for the voting period.

Im Fall einer Verlängerung oder Verkürzung der Zinsperiode können der mitgeteilte Zinsbetrag und Zinszahlungstag ohne Vorankündigung nachträglich angepasst (oder andere geeignete Anpassungsregelungen getroffen) werden. Jede solche Anpassung wird umgehend allen Börsen, an denen die Schuldverschreibungen zu diesem Zeitpunkt notiert sind, sowie den Gläubigern gemäß § 12 mitgeteilt.

([6]) *Verbindlichkeit der Festsetzungen.* Alle Bescheinigungen, Mitteilungen, Gutachten, Festsetzungen, Berechnungen, Quotierungen und Entscheidungen, die von der Berechnungsstelle für die Zwecke dieses § 3 gemacht, abgegeben, getroffen oder eingeholt werden, sind (sofern nicht ein offensichtlicher Irrtum vorliegt) für die Emittentin, die Emissionsstelle, [die Zahlstellen] und die Gläubiger bindend.

([7]) *Auflaufende Zinsen.* Die Verzinsung der Schuldverschreibungen endet mit Ablauf des Tages, der dem Tag vorangeht, an dem sie zur Rückzahlung fällig sind. The Issuer shall notify the Holders pursuant to § 12 as soon as practicable (*unverzüglich*) after such determination of the Replacement Rate, the Adjustment Spread, if any, and the Replacement Rate Adjustments. § 7 STEUERN

Sämtliche auf die Schuldverschreibungen zu zahlenden Beträge (einschließlich sämtlicher von der Garantin auf die Garantie zu zahlender Beträge) sind ohne Einbehalt oder Abzug von gegenwärtigen oder zukünftigen Steuern, Abgaben, Festsetzungen oder behördlichen Gebühren gleich welcher Art ("**Steuern**") zu leisten, die von oder in dem Staat, in dem die Emittentin steuerlich ansässig ist bzw. von oder in dem Staat, in dem die Garantin steuerlich ansässig ist oder für deren Rechnung oder von oder für Rechnung einer deren jeweiligen politischen Untergliederungen oder Steuerbehörden oder sonstigen Stellen auferlegt, erhoben, eingezogen, einbehalten oder festgesetzt werden, es sei denn, ein solcher Einbehalt oder Abzug ist kraft Gesetzes oder einer sonstigen Rechtsvorschrift vorgeschrieben. In diesem letzteren Fall wird die Emittentin bzw. die Garantin diejenigen zusätzlichen Beträge (die "**Zusätzlichen Beträge**") zahlen, die erforderlich sind, damit die den Gläubigern zufließenden Nettobeträge nach diesem Einbehalt oder Abzug jeweils den Beträgen entsprechen, die ohne einen solchen Einbehalt oder Abzug von den Gläubigern empfangen worden wären; die Verpflichtung zur Zahlung solcher zusätzlichen Beträge besteht jedoch nicht im Hinblick auf Steuern, die:

- (a) von einer als Depotbank oder Inkassobeauftragter des Gläubigers handelnden Person oder sonst auf andere Weise zu entrichten sind als dadurch, dass die Emittentin bzw. die Garantin aus den von ihr zu leistenden Zahlungen von Kapital oder Zinsen einen Abzug oder Einbehalt vornimmt; oder
- (b) wegen einer gegenwärtigen oder früheren persönlichen oder geschäftlichen Beziehung des Gläubigers zu dem Staat, in dem die Emittentin steuerlich ansässig ist bzw. zu dem Staat, in dem die Garantin steuerlich ansässig ist, die nicht nur aus der bloßen Inhaberschaft der Schuldverschreibung besteht, zu zahlen, einzubehalten oder abzuziehen sind; oder
- (c) aufgrund (i) einer Richtlinie oder Verordnung der Europäischen Union betreffend die Besteuerung von Zinserträgen oder (ii) einer zwischenstaatlichen Vereinbarung, eines zwischenstaatlichen Abkommens oder einer zwischenstaatlichen Verständigung über deren Besteuerung, an der der Staat, in dem die Emittentin steuerlich ansässig ist bzw. der Staat, in dem die Garantin steuerlich ansässig ist oder die Europäische Union

§ 7 TAXATION

All amounts payable in respect of the Notes (including all amounts to be paid by the Guarantor under the Guarantee) shall be made without withholding or deduction of any present or future taxes, duties, assessments or governmental charges of whatever nature ("**Taxes**") imposed, levied, collected, withheld or assessed by or on behalf of the Issuer's country of domicile for tax purposes or the Guarantor's country of domicile for tax purposes (respectively) or any political subdivision or any authority or any other agency thereof or therein having power to tax unless such withholding or deduction is required by law. In the latter case, the Issuer or the Guarantor, as the case may be, will pay such additional amounts (the "**Additional Amounts**") as shall be necessary in order that the net amounts received by the Holders, after such withholding or deduction shall equal the respective amounts which would otherwise have been receivable in the absence of such withholding or deduction; except that no such Additional Amounts shall be payable for any Taxes which:

- (a) are payable by any person acting as custodian bank or collecting agent on behalf of a Holder, or otherwise in any manner which does not constitute a deduction or withholding by the Issuer or the Guarantor, as the case may be, from payments of principal or interest made by it, or
- (b) are payable, withheld or deducted by reason of the Holder having, or having had, some personal or business connection with the Issuer's country of domicile for tax purposes or the Guarantor's country of domicile for tax purposes other than the mere holding of the Note, or
- (c) are to be deducted or withheld pursuant to (i) any European Union Directive or Regulation concerning the taxation of interest income, or (ii) any international treaty, agreement or understanding relating to such taxation and to which the Issuer's country of domicile for tax purposes or the Guarantor's country of domicile for tax purposes or the European Union is a party, or (iii) any provision of law implementing, or complying with, or introduced to conform with,

- beteiligt ist, oder (iii) einer gesetzlichen Vorschrift, die diese Richtlinie, Verordnung, Vereinbarung, Verständigung oder dieses Abkommen umsetzt oder befolgt, abzuziehen oder einzubehalten sind; oder
- (d) aufgrund einer Rechtsänderung zu zahlen sind, welche später als 30 Tage nach Fälligkeit der betreffenden Zahlung von Kapital oder Zinsen oder, wenn dies später erfolgt, ordnungsgemäßer Bereitstellung aller fälligen Beträge und einer diesbezüglichen Bekanntmachung gemäß § 12 wirksam wird; oder
- (e) von einer Zahlstelle einbehalten oder abgezogen werden, wenn die Zahlung von einer anderen Zahlstelle ohne den Einbehalt oder Abzug hätte vorgenommen werden können, oder
- (f) auf Grund des niederländischen Quellensteuergesetzes 2021 (*Wet bronbelasting 2021*) einbehalten oder abgezogen werden.

Die Emittentin und die Garantin sind nicht verpflichtet, Zusätzliche Beträge in Bezug auf einen Einbehalt oder Abzug von Beträgen zu zahlen, die gemäß Sections 1471 bis 1474 des U.S. Internal Revenue Code (in der jeweils geltenden Fassung oder gemäß Nachfolgebestimmungen), gemäß zwischenstaatlicher Abkommen, gemäß den in einer anderen Rechtsordnung in Zusammenhang mit diesen Bestimmungen erlassenen Durchführungsvorschriften oder gemäß mit dem U.S. Internal Revenue Service geschlossenen Verträgen von der Emittentin, der Garantin, der jeweiligen Zahlstelle oder einem anderen Beteiligten abgezogen oder einbehalten wurden (“**FATCA-Steuerabzug**”) oder Gläubiger in Bezug auf einen FATCA-Steuerabzug schadlos zu halten.

Die in der Bundesrepublik Deutschland geltende Kapitalertragsteuer und der darauf erhobene Solidaritätszuschlag sind keine Steuern im oben genannten Sinn, für die Zusätzliche Beträge seitens der Emittentin bzw. der Garantin zu zahlen wären.

§ 8 VORLEGUNGSFRIST

Die in § 801 (1) Satz 1 BGB bestimmte Vorlegungsfrist wird für die Schuldverschreibungen auf zehn Jahre verkürzt. Die Verjährungsfrist für Ansprüche aus den Schuldverschreibungen, die innerhalb der Vorlegungsfrist zur Zahlung vorgelegt wurden, beträgt zwei Jahre von dem Ende der Vorlegungsfrist an.

§ 9 KÜNDIGUNG

- (f) are deducted or withheld pursuant to the Dutch Withholding Tax Act 2021 (*Wet bronbelasting 2021*).

In any event, neither the Issuer nor the Guarantor will have any obligation to pay Additional Amounts deducted or withheld by the Issuer, the Guarantor, the relevant paying agent or any other party in relation to any withholding or deduction of any amounts required by the rules of U.S. Internal Revenue Code Sections 1471 through 1474 (or any amended or successor provisions), pursuant to any inter-governmental agreement, or implementing legislation adopted by another jurisdiction in connection with these provisions, or pursuant to any agreement with the U.S. Internal Revenue Service (“**FATCA Withholding**”), or to indemnify any Holder in relation to any FATCA Withholding.

The withholding tax (*Kapitalertragsteuer*) in effect in the Federal Republic of Germany and the solidarity surcharge (*Solidaritätszuschlag*) imposed thereon do not constitute Taxes as described above in respect of which Additional Amounts would be payable by the Issuer or the Guarantor, as the case may be.

§ 8 PRESENTATION PERIOD

The presentation period provided in Section 801 (1) sentence 1 of the German Civil Code (*Bürgerliches Gesetzbuch*) is reduced to ten years for the Notes. The period for prescription for claims under the Notes presented for payment during the presentation period shall be two years beginning at the end of the relevant presentation period.

§ 9 EVENTS OF DEFAULT

- (d) *Zahlungseinstellung:* die Emittentin, die Garantin oder eine ihrer Wesentlichen Tochtergesellschaften ihre Zahlungsunfähigkeit bekanntgibt oder ihre Zahlungen allgemein einstellt; oder
- (e) *Insolvenz u.ä.:* ein Gericht ein Konkurs- oder anderes Insolvenzverfahren (im Falle der Emittentin einschließlich eines "surseance van betaling" (im Sinne des niederländischen Insolvenzrechts)) gegen die Emittentin, die Garantin oder eine ihrer Wesentlichen Tochtergesellschaften eröffnet, oder die Emittentin, die Garantin oder eine ihrer Wesentlichen Tochtergesellschaften ein solches Verfahren einleitet oder beantragt, oder ein Dritter ein Insolvenzverfahren gegen die Emittentin, die Garantin oder eine ihrer Wesentlichen Tochtergesellschaften beantragt und ein solches Verfahren nicht innerhalb einer Frist von 60 Tagen aufgehoben oder ausgesetzt worden ist; oder
- (f) *Liquidation:* die Emittentin oder die Garantin in Liquidation geht (es sei denn, dies geschieht im Zusammenhang mit einer Verschmelzung oder einer anderen Form des Zusammenschlusses mit einer anderen Gesellschaft oder im Zusammenhang mit einer Umwandlung, sofern die andere oder neue Gesellschaft oder gegebenenfalls die anderen neuen Gesellschaften im Wesentlichen alle Aktiva, Passiva und Verpflichtungen der Emittentin oder der Garantin einschließlich der Verpflichtungen, die die Emittentin oder die Garantin im Zusammenhang mit diesen Schuldverschreibungen bzw. der Garantie eingegangen sind, übernimmt oder übernehmen); oder

- (f) *Liquidation:* the Issuer or the Guarantor enters into liquidation (except in connection with a merger or other form of combination with another company or in connection with a reconstruction and such other or new company or, as the case may be, companies effectively assume substantially all of the assets, liabilities and obligations of the Issuer or the Guarantor, including all obligations contracted by the Issuer or the Guarantor in connection with the Notes or the Guarantee, as the case may be); or
- (g) *Cessation of Business.* the Guarantor ceases all or substantially all of its business operations or sells or disposes of its assets or the substantial part thereof and thus (i) diminishes considerably the value of its assets and (ii) for this reason it becomes likely that the Guarantor may not fulfil its payment obligations against the Holders; or
- (h) *Cessation of validity of the Guarantee.* the Guarantee ceases to be valid and legally binding for any reason whatsoever.

(2) Das Kündigungsrecht erlischt, falls der Kündigungsgrund vor Ausübung des Rechts geheilt wurde.

Der Nachweis kann durch eine Bescheinigung der Depotbank (wie in § 14 (3) definiert) oder auf andere geeignete Weise erbracht werden.

§ 10 ERSETZUNG

(1) *Ersetzung*. Die Emittentin ist jederzeit berechtigt, sofern sie sich nicht mit einer Zahlung von Kapital oder Zinsen auf die Schuldverschreibungen in Verzug befindet, ohne Zustimmung der Gläubiger entweder die Garantin oder ein mit der Garantin verbundenes Unternehmen an ihrer Stelle als Hauptschuldnerin (die „**Nachfolgeschuldnerin**“) für alle Verpflichtungen aus und im Zusammenhang mit dieser Emission einzusetzen, vorausgesetzt, dass:

- (a) die Nachfolgeschuldnerin alle Verpflichtungen der Emittentin in Bezug auf die Schuldverschreibungen übernimmt;
- (b) die Nachfolgeschuldnerin alle erforderlichen Genehmigungen erhalten hat und berechtigt ist, an die Emissionsstelle die zur Erfüllung der Zahlungsverpflichtungen aus den Schuldverschreibungen zahlbaren Beträge in der hierin festgelegten Währung zu zahlen, ohne verpflichtet zu sein, jeweils in dem Land, in dem die Nachfolgeschuldnerin oder die Emittentin ihren Sitz oder Steuersitz haben, erhobene Steuern oder andere Abgaben jeder Art abzuziehen oder einzubehalten;
- (c) die Nachfolgeschuldnerin sich verpflichtet hat, jeden Gläubiger hinsichtlich solcher Quellensteuern, Abgaben oder behördlichen Lasten freizustellen, die einem Gläubiger bezüglich der Ersetzung auferlegt werden;

(2) The right to declare Notes due shall terminate if the situation giving rise to it has been cured before the right is exercised.

(3) *Quorum*. In the events specified in § 9 (1) (b) or (1) (c), any notice declaring Notes due shall, unless at the time such notice is received any of the events specified in § 9 (1) (a) or in § 9 (1) (d) through (h) entitling Holders to declare their Notes due has occurred, become effective only when the Fiscal Agent has received such notices from the Holders of at least 20 per cent. of the aggregate principal amount of all Notes still outstanding at that time.

(4) *Notice*. Any notice, including any notice declaring Notes due, in accordance with § 9 (1) above shall be made by means of a declaration in text format (*Textform*, e.g. email or fax) or in written form in the German or English language sent to the specified office of the Fiscal Agent together with proof that such Holder at the time of such notice is a holder of the relevant Notes by means of a certificate of his Custodian (as defined in § 14 (3)) or in any other appropriate manner.

§ 10 SUBSTITUTION

(1) *Substitution*. The Issuer may, without the consent of the Holders, if no payment of principal or interest on any of the Notes is in default, at any time substitute for the Issuer either the Guarantor or any Affiliate of the Guarantor as principal debtor in respect of all obligations arising from or in connection with this issue (the “**Substitute Debtor**”) provided that:

- (a) the Substitute Debtor assumes all obligations of the Issuer in respect of the Notes;
- (b) the Substitute Debtor have obtained all necessary authorisations and may transfer to the Fiscal Agent in the currency required hereunder and without being obligated to deduct or withhold any taxes or other duties of whatever nature levied by the country in which the Substitute Debtor or the Issuer has its domicile or tax residence, all amounts required for the fulfilment of the payment obligations arising under the Notes;
- (c) the Substitute Debtor has agreed to indemnify and hold harmless each Holder against any withholding tax, duty, assessment or governmental charge imposed on such Holder in respect of such substitution;

- (d) sichergestellt ist, dass sich die Verpflichtungen der Garantin aus der Garantie und der von ihr abgegebenen Negativverpflichtung auch auf die Schuldverschreibungen der Nachfolgeschuldnerin erstrecken; und
- (e) der Emissionsstelle jeweils eine Bestätigung bezüglich der betroffenen Rechtsordnungen von anerkannten Rechtsanwälten vorgelegt werden, die bestätigen, dass die Bestimmungen in den vorstehenden Unterabsätzen (a), (b), (c) und (d) erfüllt wurden.

Für die Zwecke dieses § 10 bedeutet "**verbundenes Unternehmen**" ein verbundenes Unternehmen im Sinne von § 15 Aktiengesetz.

(2) *Bekanntmachung.* Jede Ersetzung ist gemäß § 12 bekanntzumachen.

(3) *Änderung von Bezugnahmen.* Im Fall einer Ersetzung gilt jede Bezugnahme in diesen Anleihebedingungen auf die Emittentin ab dem Zeitpunkt der Ersetzung als Bezugnahme auf die Nachfolgeschuldnerin und jede Bezugnahme auf das Land, in dem die Emittentin ihren Sitz oder Steuersitz hat, gilt ab diesem Zeitpunkt als Bezugnahme auf das Land, in dem die Nachfolgeschuldnerin ihren Sitz oder Steuersitz hat.

Außerdem gilt im Falle der Ersetzung in § 7 und § 5 (2) eine alternative Bezugnahme auf die Niederlande als aufgenommen (zusätzlich zu der Bezugnahme nach Maßgabe des vorstehenden Satzes auf das Land, in dem die Nachfolgeschuldnerin ihren Sitz oder Steuersitz hat).

Die Emittentin ist berechtigt, die Globalurkunde und die Anleihebedingungen ohne Zustimmung der Gläubiger anzupassen, soweit dies erforderlich ist, um die Wirkungen der Ersetzung nachzuvollziehen. Entsprechend angepasste Globalurkunden oder Anleihebedingungen werden bei dem oder für das Clearing System hinterlegt.

§ 11 BEGEBUNG WEITERER SCHULDVERSCHREIBUNGEN, ANKAUF UND ENTWERTUNG

(1) *Begebung weiterer Schuldverschreibungen.* Die Emittentin ist unbeschadet ihres Rechts, künftig Schuldverschreibungen anderer Serien zu begeben, berechtigt, jederzeit ohne Zustimmung der Gläubiger weitere Schuldverschreibungen mit den gleichen Bedingungen (gegebenenfalls mit Ausnahme des Tags der Begebung, des Verzinsungsbeginns und/oder des Ausgabepreises) in der Weise zu begeben, dass sie mit den Schuldverschreibungen eine einheitliche Serie bilden.

- (d) it is ensured that the obligations of the Guarantor from the Guarantee and the negative pledge given by it apply also to the Notes of the Substitute Debtor; and
- (e) there shall have been delivered to the Fiscal Agent an opinion or opinions of lawyers of recognised standing to the effect that subparagraphs (a), (b), (c) and (d) above have been satisfied.

For purposes of this § 10, "**Affiliate**" shall mean any affiliated company (*verbundenes Unternehmen*) within the meaning of § 15 of the German Stock Corporation Act (*Aktiengesetz*).

(2) *Notice.* Notice of any such substitution shall be published in accordance with § 12.

(3) *Change of References.* In the event of any such substitution, any reference in these Terms and Conditions to the Issuer shall from then on be deemed to refer to the Substitute Debtor and any reference to the country in which the Issuer is domiciled or resident for taxation purposes shall from then on be deemed to refer to the country of domicile or residence for taxation purposes of the Substitute Debtor.

Furthermore, in the event of such substitution, in § 7 and § 5 (2) an alternative reference to the Netherlands shall be deemed to have been included in addition to the reference according to the preceding sentence to the country of domicile or residence for taxation purposes of the Substitute Debtor.

The Issuer is authorised to adapt the Global Note and the Conditions of Issue without the consent of the Holders to the extent necessary to reflect the changes resulting from the substitution. Appropriately adjusted Global Notes or Conditions of Issue will be deposited with or on behalf of the Clearing System.

§ 11 FURTHER ISSUES, PURCHASES AND CANCELLATION

(1) *Further Issues.* The Issuer may from time to time, without the consent of the Holders, and without limiting its right to issue notes of other series, issue further Notes having the same terms and conditions as the Notes in all respects (or in all respects except for the issue date, interest commencement date and/or issue price) so as to form a single Series with the Notes.

(2) **Ankauf.** Die Emittentin ist berechtigt, jederzeit Schuldverschreibungen im Markt oder anderweitig zu jedem beliebigen Preis zu kaufen. Die von der Emittentin erworbenen Schuldverschreibungen können nach Wahl der Emittentin von ihr gehalten, weiterverkauft oder bei der Emissionsstelle zwecks Entwertung eingereicht werden.

(3) **Form der Mitteilung der Gläubiger.** Mitteilungen, die von einem Gläubiger gemacht werden, müssen in Textform (z.B. Eine solche Mitteilung kann über das Clearing System in der von der Emissionsstelle und dem Clearing System dafür vorgesehenen Weise erfolgen.

(2) **Purchases.** The Issuer may at any time purchase Notes in the open market or otherwise and at any price. Notes purchased by the Issuer may, at the option of the Issuer, be held, resold or surrendered to the Fiscal Agent for cancellation.

§ 13

ÄNDERUNG DER ANLEIHEBEDINGUNGEN DURCH BESCHLUSS DER GLÄUBIGER; GEMEINSAMER VERTRETER

(1) Änderung der Anleihebedingungen. Die Emittentin kann gemäß §§ 5 ff. des Gesetzes über Schuldverschreibungen aus Gesamtemissionen ("SchVG") in seiner jeweils geltenden Fassung mit den Gläubigern Änderungen an den Anleihebedingungen vereinbaren, wenn die Gläubiger einen entsprechenden Beschluss gefasst haben. Hierbei können die Gläubiger durch Beschluss der in § 13 (2) genannten Mehrheit insbesondere Änderungen zustimmen, welche den Charakter der Anleihebedingungen wesentlich verändern, einschließlich der in § 5 (3) SchVG genannten Maßnahmen, aber mit Ausnahme der Ersetzung der Emittentin, welche ausschließlich den Bestimmungen von § 10 unterliegt. Ein ordnungsgemäß gefasster Mehrheitsbeschluss ist für alle Gläubiger verbindlich. Ein Mehrheitsbeschluss der Gläubiger, der nicht gleiche Bedingungen für alle Gläubiger vorsieht, ist unwirksam, es sei denn, die benachteiligten Gläubiger stimmen ihrer Benachteiligung ausdrücklich zu.

(2) Mehrheitserfordernisse. Vorbehaltlich der Bestimmungen des folgenden Satzes und vorausgesetzt, die Anforderungen an das Quorum sind erfüllt, können die Gläubiger Beschlüsse mit einfacher Mehrheit der abgegebenen Stimmen fassen. Beschlüsse, welche den Charakter der Anleihebedingungen wesentlich verändern, insbesondere in den Fällen des § 5 (3) Nrn. 1 bis 9 SchVG, bedürfen der qualifizierten Mehrheit von mindestens 75% der abgegebenen Stimmen (die "Qualifizierte Mehrheit").

(3) Beschlüsse der Gläubiger. Beschlüsse der Gläubiger können nach Wahl der Emittentin im Wege der Abstimmung ohne Versammlung, wie sie in § 18 und §§ 5 ff. des SchVG vorgesehen ist, oder im Wege einer Gläubigerversammlung, wie sie in §§ 5 ff. des SchVG vorgesehen ist, gefasst werden. Gläubiger, die insgesamt 5% des ausstehenden Nennbetrages der Schuldverschreibungen halten, können schriftlich das Abhalten einer Abstimmung verlangen, § 9 SchVG. Die Abstimmung wird von einem Notar geleitet, der von der Emittentin bestimmt wird oder, wenn der gemeinsame Vertreter, wie untenstehend definiert, die Abstimmung anberaumt hat, vom gemeinsamen Vertreter. Die Aufforderung zur Stimmabgabe durch den Abstimmungsleiter enthält weitere Ausführungen hinsichtlich der zu fassenden Beschlüsse und der Abstimmungsmodalitäten. Der Gegenstand der Abstimmung sowie die vorgeschlagenen Beschlüsse werden den Gläubigern zusammen mit der Aufforderung zur Stimmabgabe bekannt gegeben.

§ 13

AMENDMENTS TO THE TERMS AND CONDITIONS BY RESOLUTION OF THE HOLDERS; HOLDERS' REPRESENTATIVE

(1) Amendment of the Terms and Conditions. The Issuer may agree with the Holders on amendments to the Terms and Conditions by virtue of a majority resolution of the Holders pursuant to Sections 5 et seqq. of the German Act on Issues of Debt Securities (Gesetz über Schuldverschreibungen aus Gesamtemissionen - "SchVG"), as amended from time to time. In particular, the Holders may consent to amendments which materially change the substance of the Terms and Conditions, including such measures as provided for under Section 5 (3) of the SchVG, but excluding a substitution of the Issuer, which is exclusively governed by the provisions in § 10, by resolutions passed by such majority of the votes of the Holders as stated under § 13 (2). A duly passed majority resolution shall be binding upon all Holders. A majority resolution of the Holders which does not provide for identical conditions for all Holders is void, unless Holders who are disadvantaged have expressly consented to their being treated disadvantageously.

(2) Majority. Except as provided by the following sentence and provided that the quorum requirements are being met, the Holders may pass resolutions by simple majority of the voting rights participating in the vote. Resolutions which materially change the substance of the Terms and Conditions, in particular in the cases of Section 5 (3) numbers 1 through 9 of the SchVG, may only be passed by a majority of at least 75 per cent. of the voting rights participating in the vote (a "Qualified Majority").

(3) Resolutions of Holders. Grundlegende Angaben

Interests of Natural and Legal Persons involved in the Issue/Offer

Interessen von Seiten natürlicher und juristischer Personen, die an der Emission/dem Angebot beteiligt sind

In addition, certain Dealers and their affiliates have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform services for the Issuer and its affiliates in the ordinary course of business.

Such recognition will depend upon satisfaction of the Eurosystem eligibility criteria.]

[Whilst the designation is specified as "no" at the date of these Final Terms, should the Eurosystem eligibility criteria be amended in the future such that the Notes are capable of meeting them the Notes in the case of an NGN may then be deposited with one of the ICSDs as common safekeeper. Note that this does not necessarily mean that the Notes will then be recognised as eligible collateral for Eurosystem monetary policy

[Es wird darauf hingewiesen, dass "ja" im Fall einer NGN hier lediglich bedeutet, dass die Schuldverschreibungen nach ihrer Begebung bei einem der ICSDs als gemeinsamen Verwahrer verwahrt werden; es bedeutet nicht notwendigerweise, dass die Schuldverschreibungen bei ihrer Begebung, zu irgendeinem Zeitpunkt während ihrer Laufzeit oder während ihrer gesamten Laufzeit als zulässige Sicherheiten für die Zwecke der Geldpolitik oder für Innertageskredite des Eurosystems anerkannt werden. Eine solche Anerkennung ist abhängig davon, ob die Zulassungskriterien des Eurosystems erfüllt sind.]

[Auch wenn die Bezeichnung mit Datum dieser Endgültigen Bedingungen "nein" lautet, sollten die Zulassungskriterien des Eurosystems sich zukünftig dergestalt ändern, dass die Schuldverschreibungen diese erfüllen können, könnten die Schuldverschreibungen im Fall einer NGN dann bei einem der ICSDs als gemeinsamen Verwahrer verwahrt werden. Es wird darauf hingewiesen, dass dies jedoch nicht notwendigerweise bedeutet, dass die Schuldverschreibungen dann zu irgendeinem Zeitpunkt während ihrer Laufzeit als zulässige Sicherheiten für die Zwecke der Geldpolitik oder für Innertageskredite des Eurosystems anerkannt werden. 6 DESCRIPTION OF RULES REGARDING RESOLUTIONS OF HOLDERS

The Terms and Conditions pertaining to a certain issue of Notes provide that the Holders may with consent of the Issuer agree to amendments or decide on other matters relating to the Notes by way of resolution to be passed in a meeting (*Gläubigerversammlung*) or by taking votes without a meeting. Any such resolution duly adopted by resolution of the Holders shall be binding on each Holder of the respective issue of Notes, irrespective of whether such Holder took part in the vote and whether such Holder voted in favour or against such resolution.

In addition to the provisions included in the Terms and Conditions of a particular issue of Notes, the rules regarding resolutions of Holders contained in the German Act on Debt Securities (*Schuldverschreibungsgesetz aus Gesamtemissionen – “SchVG”*) are applicable. Under the SchVG, these rules are largely mandatory, although they permit in limited circumstances supplementary provisions set out in or incorporated into the Terms and Conditions.

Resolutions of the Holders with respect to the Notes can be passed in a meeting (*Gläubigerversammlung*) in accordance with Section 9 SchVG or by way of a vote without a meeting pursuant to Section 18 SchVG (*Abstimmung ohne Versammlung*).

The following is a brief summary of some of the statutory rules regarding the convening and conduct of meetings of Holders and the taking of votes without meetings, the passing and publication of resolutions as well as their implementation and challenge before German courts.

6.1 Rules regarding Holders' Meetings

Meetings of Holders may be convened by the Issuer or the Holders' Representative, if any. Meetings of Holders must be convened if one or more Holders holding 5 per cent. or more of the outstanding Notes so require for specified reasons permitted by statute.

Meetings may be convened not less than 14 days prior to the date of the meeting. The Terms and Conditions may provide that attendance and exercise of voting rights at the meeting may be made subject to prior registration of Holders. The Terms and Conditions will indicate what proof will be required for attendance and voting at the meeting. The place of the meeting in respect of a German issuer is the place of the Issuer's registered office, provided, however, that where the relevant Notes are listed on a stock exchange within the European Union or the European Economic Area, the meeting may be held at the place of such stock exchange.

The convening notice shall be made publicly available together with the agenda of the meeting setting out the proposals for resolution.

Each Holder may be represented by proxy. A quorum exists if Holders representing by value not less than 50 per cent. of the outstanding Notes. If the quorum is not reached, a second meeting may be called at which no quorum will be required, provided that where a resolution may only be adopted by a qualified majority, a quorum requires the presence of at least 25 per cent. of the aggregate principal amount of outstanding Notes.

All resolutions adopted must be properly published. In the case of Notes represented by one or more Global Notes, resolutions which amend or supplement the Terms and Conditions have to be implemented by supplementing or amending the relevant Global Note(s).

In insolvency proceedings instituted in the Federal Republic of Germany against an issuer, a Holders' Representative, if appointed, is obliged and exclusively entitled to assert the Holders' rights under the Notes. Any resolutions passed by the Holders are subject to the provisions of the Insolvency Code (*Insolvenzordnung*).

If a resolution constitutes a breach of the statute or the Terms and Conditions, Holders may bring an action to set aside such resolution. Such action must be filed with the competent court within one month following the publication of the resolution.

6.2 Specific Rules regarding Votes without Meeting

In the case of resolutions to be passed by Holders without a meeting, the rules applicable to Holders' Meetings apply *mutatis mutandis* to any taking of votes by Holders without a meeting, subject to certain special provisions. The following summarises such special rules.

The voting shall be conducted by the person presiding over the taking of votes. Such person shall be (i) a notary public appointed by the Issuer, (ii) where a common representative of the Holders (the "**Holders' Representative**") has been appointed, the Holders' Representative if the vote was solicited by the Holders' Representative, or (iii) a person appointed by the competent court.

The notice soliciting the Holders' votes shall set out the period within which votes may be cast. During such voting period, the Holders may cast their votes to the person presiding over the taking of votes. Such notice shall also set out in detail the conditions to be met for the votes to be valid.

The person presiding over the taking of votes shall ascertain each Holder's entitlement to cast a vote based on evidence provided by such Holder and shall prepare a list of the Holders entitled to vote. If it is established that no quorum exists, the person presiding over the taking of votes may convene a meeting of the Holders. Within one year following the end of the voting period, each Holder participating in the vote may request a copy of the minutes of such vote and any annexes thereto from the Issuer.

Each Holder participating in the vote may object in writing to the result of the vote within two weeks following the publication of the resolutions passed. The objection shall be decided upon by the person presiding over the taking of votes. If he remedies the objection, the person presiding over the taking of votes shall promptly publish the result. If the person presiding over the taking of votes does not remedy the objection, he shall promptly inform the objecting Holder in writing.

The Issuer shall bear the costs of the vote and, if the court has convened a meeting, also the costs of such proceedings.

7.2.2.1 Legal Proceedings

Except for the proceedings described below, no company of the Brenntag Group is currently, or has been in the past twelve months, party to a government intervention, a court or arbitration proceeding or an administrative proceeding (including those proceedings that are still pending or could be initiated to Brenntag’s knowledge) which may have, or have had in the recent past, significant effect on the financial situation or profitability of the Guarantor and/or the Brenntag Group.

From time to time, Brenntag or its companies are party to or may be threatened with litigation, claims or assessments arising in the ordinary course of its business, among others due to distribution of alleged asbestos-containing products, e.g., cosmetic talc powder. Brenntag regularly analyses current information, including its defences and insurance coverage and, as Brenntag deems necessary, provides accruals for probable liabilities for the eventual disposition of these matters. The outcome of litigation and other legal matters is always difficult to accurately predict and outcomes that are not consistent with Brenntag’s view of the merits can occur. Brenntag believes that it has valid defences to the legal matters pending against it and/or its companies, as applicable, and Brenntag is defending its positions in these matters vigorously. Nevertheless, it is possible that

²³ A credit rating assesses the creditworthiness of an entity and informs an investor therefore about the probability of the entity being able to redeem invested capital. It is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the rating agency at any time.

²⁴ According to the definitions published by S&P on its website obligations rated ‘BBB’ are judged to have adequate capacity to meet financial commitments, but are more subject to adverse economic conditions. The rating modifier of a plus (+) sign shows the relative standing within the rating category BBB.

²⁵ The “stable” designation means that a rating is likely not to change. If S&P anticipates that a credit rating may change in the coming 6 to 24 months, it may issue an updated ratings outlook indicating whether the possible change is likely to be “positive”, “negative”, “stable” or “developing” (meaning it is uncertain whether a rating might go up or down). These outlooks do not necessarily signal that rating upgrades or downgrades, respectively, will automatically follow.

²⁶ According to the definitions published by Moody’s on its website obligations rated ‘Baa2’ are judged to be subject to moderate credit risk. They are considered medium-grade and as such may possess speculative characteristics, whilst the modifier 2 indicates a mid-range ranking.

²⁷ The ESMA publishes on its website (<https://www.esma.europa.eu/credit-rating-agencies/cra-authorisation>) a list of credit rating agencies registered in accordance with the CRA Regulation. That list is updated within five working days following the adoption of a decision under Article 16, 17 or 20 CRA Regulation. The European Commission shall publish that updated list in the Official Journal of the European Union within 30 days following such update.

resolution of one or more of the legal matters currently pending or threatened could have a material adverse effect on Brenntag's business, results of operations and financial condition.

The matters summarised below represent the legal and regulatory proceedings and claims that Brenntag currently believes could have a material adverse effect on its business, results of operations and financial condition. See also "*RISK FACTORS – Legal Risks*".

7.2.2.2 Antitrust proceedings in France

In 2013, the French Competition Authority imposed fines on Brenntag SA, France and others in relation to the allocation of customers and coordination of prices in the period to 2005. Brenntag appealed against the decision of the French Competition Authority. In February 2017, the decision issued by the French Competition Authority in relation to the allocation of customers and coordination of prices was set aside by a court of appeal due to procedural errors at Brenntag's request. In December 2020, the court imposed a fine of EUR 47.0 million, which was paid in 2021. Brenntag has lodged an appeal against the decision.

A decision by the French Competition Authority is still pending in relation to the ongoing investigation concerning whether Brenntag SA, France has illegally made use of its market position. The Authority has stated that it believes that Brenntag has breached duties to cooperate/obstructed in this investigation. A fine may be imposed. Brenntag believes that all legal obligations were fulfilled.

Based on current knowledge, Brenntag assumes that claims for civil liability arising from the above-mentioned proceedings are not sufficiently substantiated.

7.2.2.3 Certain alcohol and energy taxes

Brenntag's German Group companies Brenntag GmbH and BCD Chemie GmbH were the subject of routine reviews of certain taxes on alcohol and energy conducted by the German customs authorities. Brenntag GmbH and BCD Chemie GmbH subsequently received tax assessment notices in the amount of EUR 140.5 million, which have been paid. These tax assessments relate to the financial years 2014 to 2017 in the case of BCD Chemie GmbH and to the financial years 2016 to 2017 in the case of Brenntag GmbH. The findings of the review relate only to formal errors and the tax-free use of alcoholic products by Brenntag's customers has not been challenged. Brenntag has sought legal redress against the decision. In view of the above-mentioned appeal, it is not possible at present to conclusively predict whether Brenntag GmbH and BCD Chemie GmbH will receive a partial or full refund of the payment made or whether further tax assessments will be made.

7.2.3 Management and Administrative Bodies

The Guarantor's governing entities are the management board (*Vorstand*), the supervisory board (*Aufsichtsrat*) and the general shareholders' meeting (*Hauptversammlung*). The powers of these entities are determined by the German Stock Corporation Act (*Aktiengesetz*), the Guarantor's articles of association (*Satzung*), the internal rules of procedure (*Geschäftsordnung*) for the supervisory board and internal rules of procedure (*Geschäftsordnung*) for the management board.

The management board is responsible for managing the Guarantor in accordance with applicable law, the Guarantor's articles of association and rules of procedure for the management board including the business responsibility plan (*Geschäftsverteilungsplan*). The management board represents the Guarantor in dealings with third parties.

The management board is responsible for implementing appropriate risk management and risk control systems within the Brenntag Group that provide timely warning of any development that might jeopardise Brenntag's continued existence. The management board is also obligated to report regularly to the supervisory board, at least on a quarterly basis, on the status of the business, in particular on the revenues and condition of the Guarantor and its subsidiaries. Furthermore, the management board reports to the supervisory board at least once a year on the projected business objectives and other key issues relating to corporate planning (especially finance, investment and human resources planning), which must include discussion of any deviations between actual developments and objectives previously reported on, including the reasons for such deviations. In addition, the management board must submit a budget for the following financial year and a plan for the medium term to the supervisory board. The management board is also required to report to the supervisory board in a timely manner on any transactions that may be significant with respect to the profitability (primarily the profitability of the equity) or liquidity of the Guarantor in order to give the supervisory board an opportunity to express its opinion on such transactions prior to their implementation. The management board must report

important matters to the chairman of the supervisory board, including any matters involving affiliates that become known to the management board and could have a material effect on the Guarantor.

The supervisory board appoints the members of the management board and is entitled to dismiss them for good cause. The supervisory board advises and oversees the management board on the management of the Guarantor, but is not itself authorised to manage the Guarantor, as set out in the German Stock Corporation Act. Pursuant to the rules of procedure of the Guarantor's management board, certain material transactions are subject to the approval of the Guarantor's supervisory board.

7.2.3.1 Management Board

According to the Guarantor's articles of association, the Guarantor must be represented by two management board members or one management board member acting jointly with an authorised officer (*Prokurist*). The supervisory board may grant the right to represent the Guarantor alone and may release the members of the management board from the restrictions on multiple representations pursuant to Section 181, paragraph 2 of the German Civil Code (*Bürgerliches Gesetzbuch*).

At present, no member of the management board has been granted the right to represent the Guarantor alone. All four members of the management board have been released from the restrictions of Section 181, paragraph 2 of the German Civil Code (*Bürgerliches Gesetzbuch*).

The management board determines the Guarantor's business areas and combines them into segments. The management board resolves upon the allocation of responsibility for business areas and segments to the various members of the management board by setting up a business responsibility plan (*Geschäftsverteilungsplan*).

The following table lists the members of the management board and their respective responsibilities as defined in the current business responsibility plan of August 1, 2023.

7.3 Business of the Brenntag Group

7.3.1 Overview

Brenntag believes that its growth opportunities along with its business model are based not only on an extensive geographic coverage, a wide product portfolio and a comprehensive offering of value-added services, but also especially on high diversity across suppliers, customers and industries and its targeted use of the potential offered by outsourcing as part of suppliers.

Brenntag is a reliable partner to chemical manufacturers (its suppliers) and its roughly 180,000 customers (the number of customers includes the customers that bought from Brenntag at least once in the reporting period; the decision criterion is "sold-to"; a sold-to party is the legal entity that is responsible for the purchase order and makes contact with the supplier's branch). The company connects products, knowledge and innovation, and creates added value in its networks. Brenntag promotes sustainable products and connects the needs of industry with the needs of people and the environment. As global market player, Brenntag has the vision of shaping the future of the industry.

Brenntag purchases large-scale quantities of industrial and specialty chemicals and ingredients from a large number of suppliers. This enables it to achieve economies of scale and offer a full range of products and value-added services. The products it purchases are stored in distribution facilities, packed into quantities its customers require and delivered, typically in quantities that are less than truckloads. Overall, Brenntag offers a broad product range comprising more than 10,000 chemicals (chemical substances; including the quality grade and concentration level (in the case of diluted products) or the product form (in the case of solid substances), are recorded as chemicals) and ingredients as well as extensive value-added services such as just-in-time delivery, product mixing, repackaging, inventory management and drum return handling. In addition, Brenntag offers tailor-made application, marketing and supply chain solutions, technical and formulation support, comprehensive regulatory know-how and digital solutions such as digital sales channels and product platforms. This know-how enables the company to work together with its customers and suppliers to develop sustainable products and solutions.

To enable Brenntag to best respond to its customers' and suppliers' diverse and changing requirements, Brenntag has managed its business through two global divisions since January 1, 2021: **Brenntag Specialties** and **Brenntag Essentials**, which are each managed through geographically structured segments. The two divisions are supported by Brenntag Business Services, which has been allocated to "All other Segments". In addition, "All other Segments" combines the central functions for the entire Group and the activities with regard to the digitalization of Brenntag's business. The international operations of Brenntag International Chemicals GmbH, which buys and sells chemicals in bulk on an international scale without regional boundaries, are also included here.

Brenntag Specialties focuses on selling ingredients and value-added services to the selected industries Nutrition, Pharma, Personal Care/HI&I (Home, Industrial & Institutional), Material Science (Coatings & Constructions, Polymers, Rubber) and Lubricants. Brenntag Specialties comprises the geographical segments EMEA, Americas and APAC. Brenntag Essentials markets a broad portfolio of process chemicals across a wide range of industries and applications. Brenntag Essentials is managed through the geographical segments EMEA, North America, Latin America and APAC.

In the financial year ended December 31, 2022, Brenntag Specialties accounted for 38.86% of Brenntag's Operating Gross Profit, Brenntag Essentials accounted for 60.40% and Brenntag Business Services accounted for 0.74%.

The two divisions are supported by Brenntag Business Services, which have been allocated to "All other Segments". 7.3.2 History of the Brenntag Group

Brenntag looks back at a successful history in the chemical distribution industry, which began in 1912. From Brenntag's first expansion beyond Germany in 1966, through Brenntag's entry into the U.S. market in the early 1970's, to Brenntag's accelerated growth worldwide throughout the past two decades, much of Brenntag's growth has been enabled by selective acquisitions in key growth areas around the world.

Some highlights of Brenntag's history include:

1874	Philipp Mühsam finds an egg wholesale business in Berlin that later becomes Brenntag
1912	Entry into chemical distribution business
1950-1959	Expansion of warehousing network and product lines, including inorganic and organic chemicals, solvents, plastics, resins and specialty chemicals

7.3.3 Summary of Key Strengths

Brenntag believes the following key strengths have been primary drivers in Brenntag's past success and will continue to set Brenntag apart in the future:

7.3.3.1 Global Market Leader

According to a market analysis published by ICIS, Brenntag is the global market leader in the distribution of chemicals and ingredients, with a market share of approximately 5% and sales of EUR 19,429 million in 2022. Brenntag believes that its global network and comprehensive portfolio of products and services places Brenntag in a unique position to meet customers' increasing requirements for pan-regional and global end-to-end solutions. Global reach and local market knowledge for a large chemical distributor are key to meeting customer and producer needs, and to fully benefit from scale and scope relative to smaller operators. Brenntag believes that these benefits provide Brenntag with a significant competitive advantage compared with the thousands of smaller distributors Brenntag competes with. Brenntag also believes that the growing demand for customer-specific solutions, blending and services and alternative sales channels also open up further growth opportunities.

7.3.3.2 Highly Diversified and Resilient Business Model with high Barriers to Entry

Brenntag believes that its business model positions it to take advantage of industry growth trends while strengthening its resilience through diversification. In addition, Brenntag believes that its pricing discipline (ability to quickly adjust to changes in input prices through a structured pricing mechanism), combined with a high level of diversification, helps to reduce risk. Brenntag also believes that its multi-purpose asset base enhances Brenntag's flexibility and ability to take advantage of growth opportunities, and that the scale and scope of Brenntag's operations provide it with significant benefits. Furthermore, Brenntag's operating model with the two global divisions, **Brenntag Specialties** and **Brenntag Essentials**, and their differentiated market approach enable the company to respond to its customers' and suppliers' diverse and changing requirements.

(1) As % of purchase value

(2) As % of sales

(3) As % of Operating Gross Profit

(4) Less than a truckload

Brenntag and its divisions are geographically diversified with respect to Operating Gross Profit generation and operate a global network across 600 locations in more than 70 countries as of December 31, 2022. In 2022, the Operating Gross Profit from Brenntag's highest exposure to a single industry accounted for less than 15% of Operating Gross Profit. Brenntag offers more than 10,000 products, with the top 10 products accounting for less than 20% of Operating Gross Profit. Due to the high diversification of Brenntag's operational business, there is no material exposure to or dependency on any single industry or single product. With roughly 180,000 customers, Brenntag's 10 largest customers accounted for around 7% of Brenntag's total sales in 2022. Brenntag's largest customer accounted for around 2% of Group sales in 2022. Brenntag believes this large customer base makes it attractive to suppliers seeking to distribute new products.

Brenntag's supplier base is also diverse, with Brenntag's 10 largest suppliers accounting for less than 30% of Brenntag's total purchases by value in 2022. These multiple sourcing relationships offer Brenntag's customers the benefit of redundancy of supply. Brenntag believes that it is a strategic partner of choice for certain customers and suppliers, which helps Brenntag gain access to new products and provides Brenntag with market

insights that allow it to better anticipate price changes. Brenntag believes that its collaborative relationships with customers place Brenntag on the forefront of new service developments, which may be unavailable to smaller competitors.

The high level of diversification of Brenntag's business by geography, suppliers, products, customers and customer industries provides a high level of resilience.

In Brenntag's experience the product purchase costs generally tend to vary primarily with the market prices for chemicals. Brenntag generally purchases products at market rates and not on the basis of long-term contracts. To adjust to changes in input prices, a structured pricing mechanism based on extensive market information collected by the sales force has been developed and gives the flexibility to adjust selling prices to reflect input costs.

In terms of product sourcing, Brenntag's operating model enables it to achieve economies of scale. The optimisation of the local product portfolios through sales partnership agreements with chemical producers for new products or product categories offers further potential. In addition, Brenntag pursues opportunities that arise from chemical producers outsourcing their supply chain and sales activities. Brenntag's global distribution network and experienced professional organisation are key elements for tapping this potential.

Brenntag's network of assets, infrastructure and management processes can be adapted relatively quickly and at relatively low cost in response to changing market dynamics. Brenntag believes that the capital expenditure required to maintain its assets is low relative to the size and reach of its business and, combined with relatively short lead times, results in a flexible capital expenditure cycle.

Brenntag supports its customers and suppliers in developing and growing their businesses, and enables them to expand their market reach. Brenntag provides its partners with in-depth product, application and industry expertise, and sophisticated market intelligence. Brenntag sets itself apart, drawing on its extensive product and service portfolio as well as its comprehensive industry coverage on a global level and its ability to develop creative, tailor-made solutions and extensive technical support.

Brenntag believes that there are high barriers to enter the market, as significant resources and time are required to create a global full-line chemical distributor with a comparable reach, scale and scope. Furthermore, infrastructure, permits and licenses for dealing with chemical products are required in many countries. In addition to product, application and industry know-how, in-depth knowledge of various regulatory standards is also essential. Finally, Brenntag has observed suppliers rationalising distributor relationships by allocating business to sizeable distributors with a corresponding track-record.

7.3.3.3 Transformation Programmes

Brenntag has embarked on a broad-based transformation journey to strengthen its competitive position in all dimensions. The first step of this transformation (with the motto "Leaping to new heights") was launched with "Project Brenntag" at the beginning of 2020 and was focused on laying strong foundations for sustainable future organic earnings growth. The core elements were the new operating model comprising two global divisions – Brenntag Essentials and Brenntag Specialties – with a strong focus on customer and supplier requirements, a distinct go-to-market approach, (infra-)structural topics as well as supporting people and change management measures. At the end of 2022, Brenntag realised all the defined goals successfully one year ahead of schedule. The measures enabled Brenntag to act with greater focus in the market, foster stronger partnerships with its customers and suppliers and reduce complexity.

In a next step, the "Strategy to Win" was launched in November 2022 to further strengthen and expand its position in an evolving global market environment. The strategy contained four central elements: (1) differentiated divisional strategies for the two divisions, (2) digitalisation and transformation into a data- and technology-driven company, (3) a leading role in the industry's sustainability agenda, and (4) value creating M&A activities.

With its "Digital.Data.Excellence" (DiDEX) transformation, Brenntag is investing in its long-term digital and data-based foundations in order to become the easiest partner for customers, supplier partners and employees to do business with, based on the most efficient and sustainable supply chain. The transformation includes streamlining processes, digitalising workflows, and unlocking the value of the data which Brenntag generates. The digital business architecture is being modernised and transferred to modular, cloud-based platforms. In addition, Brenntag is shifting to agile ways of working and building key competencies in all core areas.

7.3.3.4 History of high profitability and growth

Operating Gross Profit, Operating EBITDA and Operating EBITA are key performance indicators for Brenntag to measure the operating performance of the group as a whole as well as of the segments.

In the period from December 31, 2007 until December 31, 2022, the compound annual growth rate (“**CAGR**”) with respect to Operating Gross Profit was 7.9% and the CAGR with respect to Operating EBITDA was 10.4%.

The comparative period was adjusted accordingly in Brenntag's consolidated financial statements as of and for the financial year ended December 31, 2021. The operating gross profit for the financial year 2020 was taken from the consolidated financial statements as of and for the financial year 2021, which are incorporated by reference into this Prospectus.

7.3.3.5 Stable financial leverage ratio

The Leverage of Brenntag Group remained stable over many years and has decreased since 2019 due to strong operational performance and cash flow generation. Brenntag believes that the Leverage development reflects its strong financial profile. Leverage as of June 30, 2023 stands at 1.4 and reflects the dividend payment and the share buy back programme.

7.3.3.6 Strong Cash Flow Generation

Brenntag has generated strong Free Cash Flows from 2010 to 2022. Brenntag's Free Cash Flow generation amounted to EUR 1,005.1 million in 2022. Brenntag believes that its Free Cash Flow generation is a function of its strong operational performance, as well as disciplined capital management, particularly with respect to capital expenditures and working capital. While the cash flow in 2022 and in the first six months of 2023 was particularly strong due to favourable market conditions, Brenntag believes that the general cash flow profile demonstrates the strength, resilience and growth potential of Brenntag's business.

7.3.3.7 Consolidation Potential in an Industry with Attractive Dynamics

Brenntag has a track record of successfully integrating acquisitions and Brenntag believes that its combination of a worldwide network, infrastructure, know-how and leading market positions will allow Brenntag to continue to be a successful consolidator in the industry and extract synergies from future acquisitions. Brenntag follows an opportunistic acquisition approach aimed at further leveraging its asset base and network. While maintaining financial discipline, Brenntag focuses on expanding its position in emerging markets in both divisions, improving strategic capabilities and market positions and augmenting the existing portfolio and improving technical capabilities. In particular, Brenntag aims to build up scale and efficiencies, expand its geographic coverage and improve its full-line portfolio through acquisitions. Since its IPO in 2010, Brenntag executed close to 100 acquisitions around the globe.

7.3.3.8 Highly Experienced Management Team

Brenntag has developed an entrepreneurial and highly motivating management culture throughout its organisation. A high proportion of a manager's compensation is variable and directly linked to the individual's performance with respect to specific key performance indicators and individual targets. Brenntag's management board consists of senior managers with decades of combined experience in the chemical industry. Dr. Christian Kohlpaintner, Brenntag SE's Chief Executive Officer (CEO), joined Brenntag in 2020 and has a distinguished career of more than 30 years in chemical manufacturing and distribution. He became CEO effective January 1, 2020. Dr. Kristin Neumann, Brenntag SE's Chief Financial Officer (CFO), joined Brenntag in 2022 and was appointed CFO in 2022. Michael Friede, Chief Executive Officer Brenntag Specialties (CEO BSP) for Brenntag Specialties, joined Brenntag in 2023 and became Member of the Management Board effective April 1, 2023. Ewout van Jarwaarde became Member of the Management Board effective January 1, 2021 as Chief Transformation Officer (CTO). As of August 1, 2023 he was appointed Chief Executive Officer Brenntag Essentials with responsibilities for Brenntag Essentials and Digital Data and Technology.

Together, these individuals lead a management team that is highly experienced in chemical distribution, characterised by a strong commitment to reliability, safety, economic success and dynamic development.

7.3.4 Summary of Brenntag's Strategy

Brenntag believes that it is a global market leader in the distribution of chemicals and ingredients and aims to further expand its position as the preferred partner for customers and suppliers in a rapidly changing global market environment.

7.3.4.1 Organic Growth and Acquisitions

Brenntag strives to extend its market leadership by steadily growing the product and service offering organically in line with the requirements of its customers and suppliers in the two global divisions and their regional markets. In doing so, Brenntag benefits from leveraging its extensive global activities and key strengths. Brenntag's proactive sales activities focus on providing customers with tailored value-added solutions along the entire value chain rather than just products.

In addition, Brenntag continues to seek acquisition opportunities that support its strategy (see under 7.3.3.7 above).

7.3.4.2 Steadily improving Profitability

A further element of Brenntag's strategy is to continually and systematically increase profitability. On the basis of an entrepreneurial culture, operational excellence and resilient business model, Brenntag strives to steadily increase Operating Gross Profit, Operating EBITDA and cash flows and achieve higher return on capital. Growing Brenntag's business, both organically and through acquisitions, further increasing the impact of economies of scale and placing emphasis on value-added services are major levers Brenntag uses to increase profitability and returns.

7.3.4.3 Strategic Initiatives

Brenntag's strategy is based on four pillars: (1) accelerate growth through differentiated steering of Brenntag Speciality and Brenntag Essentials to leverage innovation and global reach; (2) digital and data excellence; (3) lead the sustainability agenda in chemicals and ingredients distribution; and (4) drive market consolidation through accelerating M&A.

In its human resources activities, Brenntag seeks to position the Brenntag brand in the employment market so as to recruit, develop and retain highly qualified employees. The focus here is on the employees' continuing development and, in particular, on targeted succession planning.

7.3.4.4 Sustainability

Through its new ESG strategy developed in 2022, Brenntag is paving the way to achieve its long-term sustainability vision Future Sustainable Brenntag. The strategy comprises the following six focus areas:

- Management structures for business ethics
- Portfolio and investment steering
- Fair and safe employer
- Responsible partner for suppliers and communities
- Climate protection and reduction of emissions; and
- Resource efficiency and circular economy

Brenntag is committed to the principles of responsible care and responsible distribution as well as the principles of the UN Global Compact. Brenntag is also a member of "Together for Sustainability", an industry initiative that aims to enhance sustainability across the entire chemical supply chain. Brenntag has set short, mid and long term sustainability targets. All actions are guided by the United Nations Sustainable Development Goals (SDGs). Brenntag has identified eight SDGs that are of most relevance to the company and to which it can make the greatest contribution. These eight SDGs are: good health and well-being; gender equality; affordable and clean energy; decent work and economic growth; industry, innovation and infrastructure; reduced inequalities; responsible consumption and production and climate action. In order to demonstrate its leading

role on the journey to an eco-friendly and sustainable future and make an impactful contribution, Brenntag signed up to the Science Based Targets initiative (SBTi) in 2022.

The following chart illustrates Brenntag's sustainability targets and focus areas:

Focus areas	Description	Targets 2023-2025	Targets 2030-2045	Target achievement 2022

7.3.4.5 Geographic Coverage

Brenntag has achieved broad international market coverage through a combination of organic growth and acquisitions.

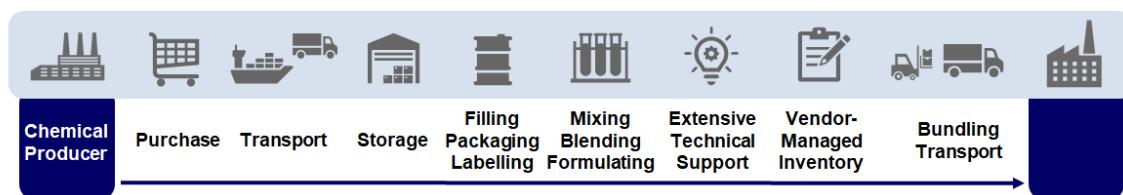

As of the date of this Prospectus, Brenntag operates a unique global network with around 600 locations in 72 countries.

The distribution strategy in each of the different regions in which Brenntag operates is tailored to the specific characteristics of the local markets. Brenntag's operations in the United States and Canada, for example, operate largely on a "hub-and-spoke" basis, where network efficiencies are achieved by concentrating

inventories for a given region primarily at a single warehouse location and shipping inventories to a larger number of smaller warehouses as needed to meet local demand. Brenntag believes the hub-and-spoke model, where it can be employed, yields significant cost savings for Brenntag's operations through efficient warehousing of inventories. In EMEA, by contrast, Brenntag's distribution network relies less on a hub-and-spoke model and features operations more attuned to the regional differences in language and business culture that characterise the European market. Although the hub-and-spoke organisation is generally used less prominently in Brenntag's non-U.S. operations than it is in the United States, Brenntag is gradually expanding its use of hub-and-spoke organisation and hybrid versions of it where Brenntag feels it will yield operational benefits in markets outside the United States.

7.3.4.6 *Brenntag's Role in the Supply Chain*

Brenntag is a full-line chemicals and ingredients distributor, providing services that connect specialty and industrial chemical producers with industrial and other customers that use those chemicals. The following chart illustrates Brenntag's role in the chemical industry supply chain:

7.3.4.7 *Supplier Base*

Brenntag sources its industrial and specialty chemicals from a diverse group of global and regional chemical suppliers. Brenntag aims to source chemicals from suppliers with a strong regional presence in order to shorten delivery times, reduce transportation costs and allow local managers to react more quickly to price fluctuations.

7.3.4.8 *Customers and Industries Served*

Brenntag distributes a wide range of industrial and specialty chemical products to around 180,000 customers worldwide, ranging from small local companies to large multinational conglomerates. No single customer is material to Brenntag's business due to the broad diversity of Brenntag's customer base. As a result of the diversity of Brenntag's customer base, demand for Brenntag's products is driven more by broader trends in the manufacturing sector and general macroeconomic trends than by trends in any particular industry. This is particularly true for industrial chemicals that are handled by Brenntag Essentials. With regard to Brenntag Specialties, demand is driven by the selected focus industries Nutrition, Pharma, Personal Care/HI&I (Home, Industrial & Institutional), Material Science (Coatings & Constructions, Polymers, Rubber) and Lubricants. These focus industries are large, globally relevant sectors that offer significant potential for end-to-end solutions as well as Brenntag's technical and application-related expertise and are subject to high regulatory requirements. They offer strong growth potential and therefore support Brenntag's growth objectives.

Brenntag's business is in large part a repeat-order business. The scope of Brenntag's sales coverage allows it to serve customers who require small-to-medium sized chemical deliveries, a market which Brenntag believes chemical suppliers generally have neither the sales and marketing resources nor the service reliability and product breadth to support, nor the operating model or infrastructure to economically service given the small volumes per order. The size of Brenntag's shipments can vary significantly, but typically Brenntag ships in less than truckload quantities.

Brenntag is not dependent on any one chemical for a significant amount of its sales, as the top 10 of over 10,000 products account for less than 20% of the operating gross profit.

Brenntag continuously seeks to optimise its product portfolio by leveraging customer relationships to obtain new products from suppliers, through acquisitions, by organic means integrating new product developments, by obtaining product lines from suppliers seeking to outsource activities, or by assessing deficiencies and pursuing products to address them in Brenntag's focus industries.

Brenntag's sales and purchase planning process aims at efficient inventory and working capital management and seeks to reduce the risk from price fluctuations. Local management uses monthly sales forecasts together with supplier, inventory and logistics management tools to forecast customer needs, including the anticipated timing of deliveries.

7.3.4.9 Marketing and Sales

Brenntag serves its customers through a team of experienced and professional Account Managers (both external and internal), complemented by strong Sales Management and Product/Industry Market Management. In total, Brenntag has more than 6,000 dedicated sales and marketing employees. Since the beginning of 2021, Brenntag is managed through two global divisions: Brenntag Essentials and Brenntag Specialties.

Brenntag Essentials markets a broad portfolio of process chemicals across a wide range of industries and applications. The more industrial and/or high-volume products are generally sold by Brenntag's local sales teams, which are managed on a regional basis.

Brenntag believes that Brenntag Specialties is geared towards expanding its market position as the leading supplier of specialty chemicals in five selected focus industries worldwide: Nutrition, Pharma, Personal Care/HI&I (Home, Industrial & Institutional), Material Science (Coatings & Construction, Polymers, Rubber) and Lubricants. Brenntag has specialised, technically-oriented sales teams that are dedicated to sales and marketing of specialty chemicals, ingredients and services. As the Specialties sales teams are focused on specific industries, they have extensive knowledge of specialty products and their applications. Brenntag also operates a number of application laboratories, which enables it to work closely with customers to provide technical solutions and other value added services. The Specialties sales teams and sales management often operate on a cross-country or cross-regional basis.

In order to serve Brenntag's major national and global customers, Brenntag has created centrally coordinated Key Account sales teams. This is a cross-regional organisation of Key Account Managers that focuses on building strong relationships with Brenntag's larger customers. This programme provides Brenntag's most strategic customers with a single senior account executive who handles all aspects of the customer relationship.

Through Project Brenntag, the aim is to make more efficient use of Brenntag's sales resources so that its customers receive the right expertise at the right time ("go-to-market-approach"). Simplified, targeted and globally harmonised customer segmentation are intended to help Brenntag's sales teams to improve customer focus among both existing customers and new prospects. This new approach enables improved customer support and higher-quality interactions with Brenntag's customers.

7.3.4.10 Health, Safety, Environmental and Quality Assurance Management

Quality, health, safety and environment are of key importance to the Brenntag Group. Processes are only carried out if they can be completed safely. This principle is the basis of Brenntag's global QHSE strategy based on the following policies:

- **Safety & health policy.** The health and safety of Brenntag's employees, contractors and the communities in which Brenntag operates are an absolute priority for Brenntag. Brenntag works on continuously improving the design and execution of work processes and site safety. Risks are identified and managed proactively and appropriate actions and behaviours to work safely are followed.
- **Product stewardship policy.** Brenntag takes necessary measures to ensure the proper handling of its products while they are under its stewardship. This includes procurement, packaging, classification and labelling, handling, storage and safe transportation, the preparation of product dossiers and safety instructions and disposal, where necessary.
- **Environmental policy.** Brenntag works continually on minimising environmental impacts. Various measures such as investments in infrastructure, optimised work procedures and employee training are implemented with a view to identifying environmental risks early on and avoiding environment-related incidents.
- **Compliance policy.** As a matter of course, Brenntag complies with all applicable health, safety and environmental legal requirements, including import and export regulations as well as use restrictions for chemicals in all of Brenntag's operations and sales organisations.
- **Quality assurance policy.** Brenntag ensures the quality of its products and services by implementing ISO 9001 quality management systems at national level.

The Responsible Care/Responsible Distribution (RC/RD) programme of the International Chemical Trade Association (ICTA) is of central importance to Brenntag. Accordingly, Brenntag is committed to implementing the respective guidelines laid down in the global programme covering the areas of legal requirements, management of risk, policies and documentation, provision of information, training, emergency response,

ongoing improvements and community interaction. Brenntag's general aim is for its operating companies to take part in the RC/RD programmes of the local associations responsible whenever such programmes exist. The implementation of the RC/RD programme is reviewed by independent experts applying the relevant regional or national assessment systems, which are determined by the associations responsible. In this way, environmental performance and the safe handling of chemicals are reviewed and documented by independent third parties. Where no RC/RD programme is offered locally, Brenntag implements the guiding principles of the global programme through internal assessments and suitable measures. Uniform procedures for the safe handling of chemicals are established by regional QHSE coordinators and QHSE teams. These procedures are recorded and documented in regionally applicable QHSE manuals down to the level of the individual warehouse sites. The observance of these procedures is reviewed in internal and external audits. When RC/RD is not locally available, the respective guidelines are still followed, as an internal management programme.

A global QSHE management program seeks to prevent accidents at work and similar occurrences by focusing on key leading indicators, such as near miss, positive action reinforcement, site walk and training, among other activities. Reportable events are recorded and evaluated centrally according to a standardised system. Key lessons learned are communicated throughout the entire organisation and included in the aforementioned QHSE manuals. Brenntag's policy of continually improving processes, equipment and safety culture has led to a significant improvement of the number of reportable industrial accidents within the Brenntag Group.

Together with independent environmental experts, Brenntag continuously records and evaluates the environmental risks at each site, including historical data, which among other things allow conclusions to be drawn about possible contamination. This information is collated in an environmental database which also serves as a basis for determining environmental provisions and is an instrument for organising necessary environmental remediation work.

Data which is required for the safe handling of Brenntag's products during storage, transport and within the delivery chain is stored in central process safety databases at Brenntag. This makes it possible, for example, to implement all amendments to European laws simultaneously in all applicable countries and make them accessible to the global organisation. This is therefore an important prerequisite for safe, efficient and systematic chemical management.

The basis for quality management within the Brenntag Group is the internationally applicable ISO 9001 standard, which is implemented at local level. Further industry- or product-specific quality management systems are deployed where necessary, particularly in food safety and good management practices in general.

As a chemical distributor, Brenntag generally operates in a complex regulatory environment. In Europe, for example, this includes the REACH regulation and the Biocidal Product Regulation enacted by the European Union. Transnational teams of experts, consisting of a network of experienced HSE and regulatory specialists, are deployed to ensure that operating and business processes are in compliance with the regulations. Working closely with the management on the sourcing and sales side, they make sure that Brenntag meets all of the numerous regulatory requirements professionally and efficiently. For information on risks relating to the environment that effect Brenntag, see "*2.1.2.9 Brenntag may fail to comply with environmental, social and governance (ESG) standards and expectations.*" and "*2.1.2.12 Accidents, environmental damage, misuse of Brenntag's products, major or systemic delivery failures or adverse health effects or other harm could result in damage to its reputation and substantial remedial obligations.*".

7.3.4.11 *Information Security and Cyber Resilience*

Brenntag manages the information and cybersecurity risk through a dedicated Chief Information Security Office and has released directives to ensure that all stakeholders within the group take adequate measures to minimising the likelihood of a business disruptive cyberattack or any intrusion that would result to reputational damage and or legal and contractual liabilities.

The main objectives of information security at Brenntag are to protect its employees and business partners, business processes, and supporting technologies against digital exploitation, to prevent business disruption and financial damage.

To ensure this, Brenntag invests in appropriate information security measures, complies with existing local and international laws, and adheres to internationally established standards and best practices on information security and cyber resilience.

7.3.5 Insurance Coverage

Brenntag holds a number of insurance policies centrally managed by Brenntag and adjusted on an ongoing basis according to the current circumstances. Brenntag obtains insurance based on internal risk management analyses either in the form of group insurance policies or individual policies to cover particular risks. Brenntag's insurance coverage includes general liability insurance, marine insurance and environmental damage insurance, as well as property insurance covering buildings, facilities and machinery, and other standard insurance. In general, the Brenntag Group has not taken out insurance for damages arising from business interruptions on an all risk basis, although in certain countries Brenntag has obtained such insurance coverage where Brenntag deemed such coverage to be necessary.

The insurance coverage outlined above is subject to, *inter alia*, (sub)limits, deductibles and customary exclusions. Also against this backdrop, Brenntag may incur losses or be subject of claims that fall not within or exceed the scope of the insurance coverage outlined above.

7.3.6 Material Contracts

The majority of the material contracts described below relate to financing arrangements of the Brenntag Group. The terms of these arrangements are based on agreement with the respective contracting parties. As a result, the financial terms used in the respective agreements and in these descriptions of those agreements do not have the same meaning as those provided under IFRS and as used in the financial statements included elsewhere in this Prospectus.

7.3.6.1 Credit Facility

9 SUBSCRIPTION AND SALE

9.1 Underwriting

The Notes may be issued on a continuing basis to one or more of the Dealers appointed under the Programme from time to time by the Issuer, which appointment may be for a specific issue or on an ongoing basis. Notes may be distributed by way of public or private placements and, in each case, on a syndicated or non-syndicated basis. The method of distribution of each Tranche will be stated in the relevant Final Terms. Notes may be sold from time to time by the Issuer to any one or more of Deutsche Bank Aktiengesellschaft, BNP Paribas, BofA Securities Europe SA, Commerzbank Aktiengesellschaft, Crédit Agricole Corporate and Investment Bank, DZ BANK AG Deutsche Zentral-Genossenschaftsbank, Frankfurt am Main, HSBC Continental Europe, ING Bank N.V., Landesbank Hessen-Thüringen Girozentrale, Mizuho Securities Europe GmbH, MUFG Securities (Europe) N.V., UniCredit Bank AG and the other Dealers specified herein (the “**Dealers**”). The arrangements under which Notes may from time to time be agreed to be sold by the Issuer to, and purchased by, Dealers are set out in a Dealer Agreement dated September 4, 2023 (the “**Dealer Agreement**”) and entered into between the Issuer and the Dealers. Any such agreement will, *inter alia*, make provision for the form and terms and conditions of the relevant Notes, the price at which such Notes will be purchased by the Dealers and the commissions or other agreed deductibles (if any) payable or allowable by the Issuer in respect of such purchase. The Dealer Agreement makes provision for the resignation or termination of appointment of existing Dealers and for the appointment of additional or other Dealers either generally in respect of the Programme or in relation to a particular Tranche of Notes. A subscription agreement prepared in connection with a particular Tranche of Notes will typically be dated on or about the respective date of the Final Terms applicable to such Tranche of Notes.

9.2 Selling Restrictions

9.2.1 General

Each Dealer has represented, warranted and agreed that it has complied and will comply with all applicable laws and regulations in each country or jurisdiction in or from which it purchases, offers, sells or delivers Notes or possesses, distributes or publishes the Prospectus or any related offering material and will obtain any consent, approval or permission required by it for the purchase, offer, sale or delivery by it of Notes under the laws and regulations in force in any jurisdiction to which it is subject or in which it makes such purchases, offers, sales or deliveries and neither the Issuer nor the Guarantor nor any other Dealer shall have any responsibility therefor.

With regard to each Tranche, the relevant Dealer will be required to comply with such other additional restrictions as the Issuer and the relevant Dealer shall agree and as shall be set out in the applicable Final Terms.

9.2.2 EEA

Unless the Final Terms in respect of any Notes specify the “*Prohibition of Sales to EEA Retail Investors*” as “*Not Applicable*”, each Dealer has represented, warranted and agreed, and each further Dealer to be appointed under the Programme will be required to represent and agree, that it has not offered, sold or otherwise made available and will not offer, sell or otherwise make available any Notes which are the subject of the offering contemplated by this Prospectus as completed by the Final Terms in relation thereto to any retail investor in the European Economic Area (“**EEA**”). For the purposes of this provision the expression “**retail investor**” means a person who is one (or more) of the following:

- (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, “**MiFID II**”); or
- (ii) a customer within the meaning of Directive (EU) 2016/97 (as amended, the “**Insurance Distribution Directive**”), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II.

9.2.3 United States of America (the “United States”)

- (a) With regard to each Tranche, each Dealer has acknowledged that the Notes have not been and will not be registered under the Securities Act and may not be offered or sold within the United States except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act. Each Dealer has represented, warranted and undertaken that it has not offered or sold,

and will not offer or sell, any Note constituting part of its allotment within the United States except in accordance with Rule 903 of Regulation S under the Securities Act. Accordingly, each Dealer has further represented, warranted and undertaken that neither it, its affiliates nor any persons acting on its or their behalf have engaged or will engage in any directed selling efforts with respect to any Note.

The Notes are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to a United States person, except in transactions permitted by U.S. tax regulations. Terms used in this paragraph have the meanings given to them by the United States Internal Revenue Code and regulations thereunder.

In addition, until 40 days after the commencement of the offering, an offer or sale of Notes within the United States by a dealer (whether or not participating in the offering) may violate the registration requirements of the Securities Act.

- (b) From and after the time that the Issuer notifies the Dealers in writing that it is no longer able to make the representation set forth in Clause 4.1 (o) of the Dealer Agreement, each Dealer has (i) acknowledged that the Notes have not been and will not be registered under the Securities Act and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons except in certain transactions exempt from the registration requirements of the Securities Act; (ii) represented, warranted and undertaken that it has not offered, sold or delivered any Notes, and will not offer, sell or deliver any Notes, (x) as part of its distribution at any time or (y) otherwise until 40 days after the later of the commencement of the offering and closing date, except in accordance with Rule 903 of Regulation S under the Securities Act; and accordingly, (iii) further represented, warranted and undertaken that neither it, its affiliates nor any persons acting on its or their behalf have engaged or will engage in any directed selling efforts with respect to any Note, and it and they have complied and will comply with the offering restrictions requirements of Regulation S; and (iv) also agreed that, at or prior to confirmation of any sale of Notes, it will have sent to each distributor, dealer or person receiving a selling concession, fee or other remuneration that purchases Notes from it during the distribution compliance period a confirmation or notice to substantially the following effect:

"The Notes covered hereby have not been registered under the U.S. Securities Act of 1933, as amended (the "**Securities Act**"), and may not be offered or sold within the United States or to, or for the account or benefit of, U. S. persons by any person referred to in Rule 903(b)(2)(iii) of Regulation S under the Securities Act (i) as part of their distribution at any time or (ii) otherwise until 40 days after the later of the commencement of the offering and the closing date, except in either case in accordance with Regulation S under the Securities Act. Terms used above have the meanings given to them by Regulation S under the Securities Act."

- (c) With regard to each Tranche, each Dealer has represented, warranted and agreed that it has not entered and will not enter into any contractual arrangement with respect to the distribution or delivery of Notes, except with its affiliates or with the prior written consent of the Issuer.
- (d) Notes will be issued in accordance with the provisions of U.S. Treas.Reg. § 1.163-5(c)(2)(i)(C) (the "**C Rules**"), or in accordance with the provisions of U.S. Treas. Reg. § 1.163-5(c)(2)(i)(D) (the "**D Rules**") (or any successor rules in substantially the same form that are applicable for purposes of Section 4701 of the U.S. Internal Revenue Code), as specified in the Final Terms.

In addition, where the C Rules are specified in the Final Terms as being applicable to any Tranche of Notes, Notes must be issued and delivered outside the United States and its possessions in connection with their original issuance. Each Dealer has represented, warranted and undertaken that it, in connection with the original issuance of Notes has not offered sold or delivered and will not offer, sell or deliver, directly or indirectly, Notes within the United States or its possessions in connection with their original issuance. Further, each Dealer has represented, warranted and undertaken in connection with the original issuance of Notes, that it has not communicated, and will not communicate, directly or indirectly, with a prospective purchaser if either such Dealer or such purchaser is within the United States or its possessions and will not otherwise involve its U.S. office in the offer or sale of Notes. Terms used in this paragraph have the meanings given to them by the U.S. Internal Revenue Code and regulations thereunder, including the C Rules.

In addition, in respect of Notes issued in accordance with the D Rules, each Dealer has represented, warranted and undertaken that:

- (i) except to the extent permitted under the D Rules, (x) it has not offered or sold, and during the restricted period will not offer or sell, Notes to a person who is within the United States or its

possessions or to a United States person, and (y) such Dealer has not delivered and will not deliver within the United States or its possessions definitive Notes that are sold during the restricted period;

- (ii) it has, and throughout the restricted period will have, in effect procedures reasonably designed to ensure that its employees or agents who are directly engaged in selling Notes are aware that such Notes may not be offered or sold during the restricted period to a person who is within the United States or its possessions or to a United States person, except as permitted by the D Rules;
- (iii) if such Dealer is a United States person, it represents that it is acquiring the Notes for purposes of resale, in connection with their original issuance and if such Dealer retains Notes for its own account, it will only do so in accordance with the requirements of U.S. Treas.Reg. § 1.163-5(c)(2)(i)(D)(6); and
- (iv) with respect to each affiliate that acquires from such Dealer Notes for the purposes of offering or selling such Notes during the restricted period, such Dealer either (x) repeats and confirms the representations and agreements contained in sub-clauses (i), (ii) and (iii) above on such affiliate's behalf or (y) agrees that it will obtain from such affiliate for the benefit of the purchaser of the Notes and the Issuer the representations and agreements contained in sub-clauses (i), (ii) and (iii) above. Terms used in this paragraph (e) have the meanings given to them by the U.S. Internal Revenue Code and regulations thereunder, including the D Rules.

9.2.4 United Kingdom of Great Britain and Northern Ireland (“United Kingdom”)

Unless the Final Terms in respect of any Notes specifies “*Prohibition of Sales to UK Retail Investors*” as “*Not Applicable*”, each Dealer has represented and agreed, and each further Dealer to be appointed under the Programme will be required to represent and agree, that it has not offered, sold or otherwise made available and will not offer, sell or otherwise make available any Notes which are the subject of the offering contemplated by this Prospectus as completed by the Final Terms in relation thereto to any retail investor in the United Kingdom. For the purposes of this provision the expression “retail investor” means a person who is one (or more) of the following:

- (i) it has only communicated or caused to be communicated and will only communicate or cause to be communicated an invitation or inducement to engage in investment activity (within the meaning of Section 21 of the FSMA) received by it in connection with the issue or sale of any Notes in circumstances in which Section 21 (1) of the FSMA does not apply to the Issuer or the Guarantor; and
- (ii) it has complied and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to any Notes in, from or otherwise involving the United Kingdom.

9.2.5 Italy

10 GENERAL INFORMATION

10.1 Listing and Admission to Trading

Application has been made to list Notes under the Programme on the official list of the Luxembourg Stock Exchange and to admit to trading on the Euro MTF operated by the Luxembourg Stock Exchange.

The Programme provides that Notes may be listed on other or further stock exchanges, as may be agreed between the Issuer and the relevant Dealer(s) in relation to each issue. Notes may further be issued under the Programme which will not be listed on any stock exchange.

The Notes will be issued on a continuing basis to one or more of the Dealers. Notes may be distributed on a syndicated or non-syndicated basis.

10.2 Interests of Natural and Legal Persons involved in the Issue

Certain of the Dealers and their affiliates have engaged, and may in the future engage, in the ordinary course of their business activities, in lending, advisory, corporate finance services, investment banking and/or commercial banking transactions with, and may perform the services for, the Issuer and its affiliates in the ordinary course of business and/or for companies involved directly or indirectly in the sector in which the Issuer and/or its affiliates operate, and for which such Dealers have received or may receive customary fees, commissions, reimbursement of expenses and indemnification. Certain of the Dealers may also have positions, deal or make markets in the Notes issued under the Programme, related derivatives and reference obligations, including (but not limited to) entering into hedging strategies on behalf of the Issuer and its affiliates, investor clients, or as principal in order to manage their exposure, their general market risk, or other trading activities. They have received, or may in the future receive, customary fees and commissions for these transactions.

In addition, in the ordinary course of their business activities, certain Dealers and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of the Issuer or Issuer's affiliates. The Dealers and/or their affiliates may receive allocations of the Notes (subject to customary closing conditions), which could affect future trading of the Notes. Certain of the Dealers or their affiliates that have a lending relationship with the Issuer routinely hedge their credit exposure to the Issuer consistent with their customary risk management policies. Typically, such Dealers and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in securities, including potentially the Notes issued under the Programme. Any such positions could adversely affect future trading prices of Notes issued under the Programme. The Dealers and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

10.3 Authorisation

The establishment and the subsequent annual updates of the Programme were authorised by the Management Board of the Issuer on August 30, 2023 and by the Management Board of the Guarantor on August 26, 2023.

The Issuer has obtained or will obtain from time to time all necessary consents, approvals and authorisations in connection with the issue and performance of the Notes.

10.4 Use of Proceeds
