We refine coffee, sourdoughs, pastry goods, dairy products and other foodstuffs into high-quality products, drawing on unique know-how built up over decades.

Dr. Suwelack has been based in Billerbeck, in Germany's Münsterland region, for over 130 years. It is from this base that we now export our products to customers all over the world. These customers value above all our excellent product quality – taste, naturalness and product safety – as well as our extremely high production standards. From fresh yoghurt to seductive caramel, dairy products have a wide appeal and are used as a basis for many delicacies and for refining many others.

We provide you with the entire spectrum of milk specialities in powder form. Our MILK product line combines the best of two worlds: the incomparable taste of fresh products with the convenience and shelf life of powder form.
