

# Product overview

Water Treatment UK & Ireland

# Product overview

## Coagulants

- Aluminium salts
  - Aluminium and polymer blends
  - Aluminium chlorohydrate (ACH)
  - Aluminium sulfate (Alum)
  - Iron and aluminium blends
  - Polyaluminum chloride (PAC)
  - Sodium aluminate
- Iron salts
  - Ferric chloride
  - Ferric sulphate
  - Ferrous chloride

## Flocculants

- Powder and emulsion
- Cationic/anionic/non-Ionic
- Water-based

## pH correction and neutralisation

- Sodium hydroxide
- Sulphuric acid
- Hydrochloric acid
- Calcium hydroxide
- Milk of lime
- Magnesium hydroxide suspension

## Carbon sources

- Acetic acid
- Methanol
- Brenntaplus VP1
- Brenntaplus CL51 and CL60

## Nutrients and nutrient blends

- Urea
- Phosphoric acid
- Customised blends C, N and P

## Deposphating

- Metal salts
- Magnesium hydroxide suspension
- Magnesium oxide
- Magnesium chloride

## Heavy metal removal

- Metalclean A, B and blends
- Trimercaptotriazine (Na3T)
- Advanced formulations
- Milk of lime
- Calcium bromide

## Defoamers

- Fat-based
- Silicon-based
- Oil-based
- Biodegradable

## Disinfectants and biocides

- Oxidising biocides
  - Sodium hypochlorite
  - Calcium hypochlorite
  - Chlorine gas
  - Chlorine dioxide
  - Sodium chlorite
  - Hydrogen peroxide (with silver)
  - Peracetic acid
- Non-oxidising biocides
  - Glutaraldehyde
  - Isothiazolinone
  - Algaecide/fungicides
  - Chlorinated isocyanurates (Di/Tri)
  - Sodium bromide
  - BCDMH

## Activated carbon

- Steam/chemical activated
- Vegetable and mineral
- Powder/granular/extruded
- Impregnated
- Acid washed
- Virgin/reactivated
- Blends

## Filtration media

- Hydro anthracite
- Quartz sands and others
- Perlite
- Zeolite
- Special filtration media

## Scale inhibitors

- Phosphonates
- Polymers – acrylic and maleic
- Other scale inhibitors
- Formulated blends

## Corrosion inhibitors

- Neutralizing and filming amines
- Oxygen scavengers
- Other corrosion inhibitors

## Softening and demineralization

- Softening salts
- Ion exchange resins
  - Cationic
  - Anionic

## Membrane treatment

- Antiscalants
- Biocides
- Cleaning chemicals

## Air treatment and odour control

- Calcium nitrate
- Hydrogen peroxide
- Permanganates
- Sodium nitrate/sodium nitrite
- Other odour control chemicals
- Filtration media (activated carbon based)
- Calcium bromide

## Soil remediation

- In-situ chemical oxidation
- Klozur® plus activator
- PermeOx®
- Permanganates
- Hydrogen peroxide / iron
- Biological remediation
- Bacterial blends
- Nutrient blends
- Immobilisation Techniques
- Metal stabilisation
- Sodium bisulphite

## Swimming pool chemicals

- Algicides
- Clarifiers
- Cleaners
- Disinfectants
- Flocculation/coagulation aids
- pH adjusters
- Testing kits and equipment
- Filtration media

## Other specialties

- Antifreeze
- Oil and chemical binders
- Adsorbents (bentonite mixtures)
- Permanganates
- Fat-degrading bacteria
- Micronutrients
- Enzymes

# Contact
