

Product list

Polymers Nordic

Product by customers

	Injection moulding	Extrusion companies	Roto moulding	Plastics recyclers	Compounder / masterbatch	Foam producers
Additives						
Plasticizers	■	■	■		■	■
Flame retardants synergists					■	■
Coupling agents	■	■		■	■	
Compatibilizers	■	■		■	■	
Organic pigments			■	■	■	■
Soluble dyes				■	■	
Iron oxides			■	■	■	
White pigment			■	■	■	
Slip/antiblock additives	■	■			■	
Process aid/weight reduction			■		■	■
Synthetic, natural and modified waxes	■	■	■	■	■	
Thermally conductive fillers	■	■	■		■	■
Electrically conductive fillers	■	■	■		■	
Protective coating agents		■				
Impact modifiers	■	■			■	■
Heat stabilizers	■	■			■	
Antioxidant		■	■	■	■	■
Uv stabilisers		■	■	■	■	■
Purging agents	■	■	■	■	■	
Polymers						
Polyamide (PA 6.10, 10.10, 6.12, 12)	■	■			■	
Polybutylene terephthalate (PBT)	■	■			■	
Acetal (POM)	■	■			■	
Thermoplastics vulcanizates (tpv)	■	■		■		
Engineering polymer compounds	■	■				
Bio-based compounds	■	■				
Recycled polymers	■	■			■	
PU						
PU (Polyol/MDI)	■	■			■	■
PU additives	■	■			■	■
PU protection coating agents		■			■	■
PU systems	■				■	■
TPU	■					

Suppliers

Polymers product overview

Supplier	Brand name	Product	Applications / benefits
High performance and engineering polymers			
Evonik	Vestamid	PA12	Automotive, industrial, consumer goods Tubes (foodgrade, automotive)
	Vestodur	PBT	E & E
	Trogamid	Specialty PA (transparent)	Automotive, lighting, industrial
	Vestamid Care	Specialty PA	Medical
Brenntag Compounds	Nylaforce, Alamid,Tecdur, Triboforce, Thermoforce	Engineering polymers compounds, filled & unfilled	Automotive, E&E, heat conductive, tribologically optimized, laser marking and magnetic tracing
Alfater XL	Alfater	TPV	Automotive, mining, industrial
Formosa Idemitsu	Tarflon, Tairilite, Tairiloy	PolyCarbonate, blends, compounds	Automotive, appliances, household, industrial, consumer goods
SABIC	SABIC POM	PolyAcetal	Applications with low friction or high chemical resistance requirements
	SABIC EPDM	EPDM	Automotive, industrial, appliances, W&C
Additives			
SI Group	Anox, Lowinox	Antioxidant (phenolic)	To protect standard and engineering polymers against thermal and UV degradation during processing and product life
	Alkanox, Utranox, Weston	Antioxidant (phosphite)	
	Naugard	Antioxidant (aminic)	
	Lowilite	UV Stabiliser (HALS & UV absorbers)	
	Royaltuf	Impact modifier, coupling agent	Polyamide, superb low temperature properties
	Polybond	Coupling agent for PE and PP	Polyolefins, improves bonding between polymer and fillers
Brenntag Colours	Bricofor	Organic pigments	Colour
	Kenawax	Soluble dyes	Colour, mainly for engineering polymers
Hyrox	Hyrox	Inorganic iron oxides	Colour
LomonBillions	BILLIONS™ TiO2	Titanium dioxide	Opacifying, hiding power, pastel shades, UV stability
			Color for all polymers including PVC
3M	3M™ Glass Bubble	Hollow glass bubbles	Compounders, masterbatches, composites
	Boron Nitride	Thermal conductivity	Heat conductive improvement
Elkem	Sidistar	Flame retardant synergist	All polymers, partial ATH / ATO replacement
Valtris	Cereplas	Specialty plasticizers	DOTP, adipates, trimetillates
PMC	Armoslip, Kemamide	Slip/anti-block agents	Polyolefins
Stahl	Permutex, Permuthane	Coating agenst, laquers	Synthetic leather protection coating
Alphamin		Synthetic-, natural- and modified waxes	Dispersing agent, coupling agent, lubricant
Italmatch	Kemilub	Metal stearates	Lubricants
	Kemistab	Metal stearates	PVC stabilizer
Imerys	Timrex, C-Energy, Ensaco	Carbon black and conductive graphite	Improve electrical and thermal conductivity
Denka	Denka IP	Impact modifier, coupling agents	Bonding agent, compatibilizer
Sustainable polymers solutions			
Evonik	Vestamid Terra, Vestamid RCF, Vestamid eCO	Sustainable verions of PA 6.10 and PA 12	Reduced PCF. Comply with current/future regulations
Electro Recycling	rABS	PCR ABS	Reduced PCF. Comply with current/future regulations
SI Group	Evercycle	Antioxidants blends for recycling	Stabilize during recycling process PE/PP/PET
Bio Plast Pom	NOPLA	Biobased biodegradable starch based polymers	Home compostable. Applications affected by Single Use Plastic directive and others.
PU			
Lanxess	Adipren, Vibracure, Vibrathane	PU systems	PU rigid and foam
DOW	Voranol, Voranate	Polyol, MDI	PU system base
	Vorasurf	Surfactants	Silicon based surfactants
Stahl	Permutex, Permuthane	Coating agenst, laquers	Fibre protective coating
Lanxess	Ultralast	TPU	PU systems, pre blended
