

# Mining capabilities

For our mining team, the business goes far beyond the sheer distribution of chemicals

# From mine to market, we're your secure and sustainable chemicals supplier!

With over 100 years' experience in the chemical distribution industry, we are well positioned to provide customers with a vast array of chemical products and technical services to the mining industry.

Our product portfolio includes an extensive line of chemicals for different applications throughout mining operations, such as:

- Dust control, antifreeze
- Grinding
- Gold mineral processing
- Precious metal processing
- Base metal processing
- Industrial mineral processing
- Flotation
- Dewatering applications
- Hydrometallurgical
- Pyrometallurgical
- Mine water treatment

Our mission is to do whatever it takes to exceed the needs of our customers in an ongoing and consistent manner. State-of-the-art facilities with extensive quality programs enable us to succeed. We prepare for your future needs by continuously improving best practices around quality. We're aware of tomorrow's requirements and works toward accomplishing them in a cost-effective and efficient manner. Our quality systems are driven by the ISO 9001:2008 standards, and close to 90% of our North American locations are certified with remaining facilities working toward obtaining this certification.

# Products

- Acids
  - Acetic
  - Formic
  - HFS
  - Hydrochloric
  - Hydrofluoric
  - Nitric
  - Oxalic
  - Phosphoric
  - Sulfamic
  - Sulfuric
- Activated carbon
- Aluminum sulfate
- Ammonium thiosulfate
- Antifreeze
- Blended solvents
- Borax
- Calcium chloride
- Carbon black
- Caustic soda
- Cellulose ether thickeners
- Chlorine
- Cobalt sulfate
- Collectors
- Copper sulfate
- Custom blends
- Cyanides
- Depressants
- Diesel exhaust fluid (DEF)
- Ethylene glycol
- Fatty acids (tallow and vegetable derived)
- Ferric chloride
- Ferric sulphate
- Flocculants
- Frothers
- Glycols
- Hydrated lime
- Hydrogen peroxide
- Lead nitrate
- Lime
- Magnesium hydroxide
- Methanol
- Methyl isobutyl carbinol (MIBC)
- Polymers
- Potassium permanganate
- Soda Ash (light and dense)
- Sodium hydrosulfide
- Sodium hydroxide
- Sodium hypochlorite
- Sodium metabisulfite
- Sodium nitrate
- Sodium silicate
- Sodium sulfide - flake
- Sodium sulfite
- Sodium thiocyanate
- Sulphur dioxide
- Tall oils (crude, distilled, tall oil fatty acids)
- Terpenes (dipentene, pine oil, gum rosin)
- Tributyl phosphate
- Vegetable oils
- Xanthates
- Zinc compounds
- Zinc dust

# Value-added services

We have an unparalleled ability to support multi-national customers with our globally based business structure and alliances with both locally and internationally known suppliers. With various distribution and sales locations throughout North America, Latin America, Europe, and Asia, we are capable of meeting our customer's needs from commodity to specialty market products in a broad range of package sizes.

- Tank supply
- Remote tank monitoring system
- Reagent system supply
- Reagents optimization
- Lab testing and application evaluation
- Cyanide safe application stewardship program
- On-site bulk tank storage assessment
- Commercial trial assistance (activated carbon/flotation/dewatering/water treatment)
- Analytical laboratory services
- Mixing & blending
- Custom packaging
- Chemical reagents HAZOP review
