Services overview

Battery Materials and Solutions

Battery Materials and Solutions

As your dedicated partner, we engage with every facet of the industry to provide unparalleled support.

Who we are

As the global market leader in chemicals and ingredients distribution, we provide the extensive product portfolio, supplier network, and blending and logistics expertise that is needed to support all stages of the battery lifecycle.

Whether you need technical support for water treatment units, tailor-made blending, or our CO₂-Management service, we offer services and solutions for all your industry challenges.

We operate a strong global network of more than 17,500 employees and about 600 sites, serving around 185,000 customers worldwide. Setting high standards for sustainability in our industry, we attained the highest possible status of Platinum in the EcoVadis sustainability assessment.

We partner throughout the whole lithium-ion battery ecosystem using a safe, reliable, and circular approach. Find out more about our battery-related services on the next page. For detailed information, please see our full Battery Materials and Solutions service portfolio or get in touch with us.

Operational and circularity services

Mixing, Blending & Grinding

- According to customer-owned or jointly developed formulations
- Customer-owned material or including purchasing

Supply Chain

- CO₂-Management
- Vendor-managed-inventory
- Just-in-time delivery
- Track & Trace
